OUR WORLD & OUR PEOPLE

Basic 2 • Illustrated Learning Workbook

24 lessons · 120 Play questions · 240 Challenge questions

An independent adaptation for learning, based on the Ghana NaCCA Our World and Our People curriculum (2019). Not an official NaCCA publication.

Welcome, learner!

Read the mini-lesson, explore the picture, tell the story, try the practical activity and answer the two sets of questions. Use the answer key at the back to check your work.

Play: 5 questions per lesson. Challenge: 10 different questions per lesson. Choose A, B or C. The examples in Play and Challenge do not repeat.

LESSON 01 | Gifts That Sustain Life

All About Us • Nature of God

I can...

Name gifts that believers describe as showing God sustains life.

Let’s learn

In this lesson, we explore what keeps people, plants and animals alive. Many families thank God for rain, sunshine and air. Rain helps crops grow; sunshine gives warmth and light; clean air helps us breathe.

Little story

Akua watches rain water her school garden. After the rain, she notices sunshine on the leaves and thanks God for the gifts that support life.

Try it together

Observe the school garden. Name one way air, rainfall and sunlight help a living thing. Share what your family says about these gifts.

Draw and discover

Draw a plant, a rain cloud and a bright sun. Show moving air with curved lines.

PLAY — 5 questions

1. What do people breathe to stay alive?

A. Air B. Sand C. Plastic

2. Which gift helps water crops?

A. Glass B. Smoke C. Rain

3. What bright gift gives us daylight?

A. Paper B. Sunshine C. Dust

4. What needs air, water and light to grow well?

A. A plant B. A bottle C. A stone

5. How may a believer describe God in this lesson?

A. Maker of plastic bags B. Keeper of traffic lights C. Sustainer of life

CHALLENGE — 10 new questions

1. Yaw notices dry maize plants. Which natural gift would help them?

A. Road paint B. Rainfall C. Petrol

2. A school hall is dark at midday. What natural source gives daylight outside?

A. The sun B. A radio C. A broom

3. Which gift lets a child take a breath while singing?

A. A desk B. A notebook C. Fresh air

4. A farmer’s seedlings begin to grow. Which statement fits this lesson?

A. Plastic creates rainfall B. Nature supports life C. Cement feeds seedlings

5. Which two things are needed by a young tree?

A. Water and sunlight B. Noise and dust C. Shoes and chalk

6. On a hot morning, what may make a wet cloth dry outdoors?

A. A pencil B. A drum C. Sunshine

7. A fish lives in a pond. Which natural resource is its home?

A. A chair B. Water C. A textbook

8. What is one respectful way to describe a family’s belief about nature?

A. Listen and share calmly B. Mock their words C. Interrupt loudly

9. During a nature walk, what evidence of life can you find?

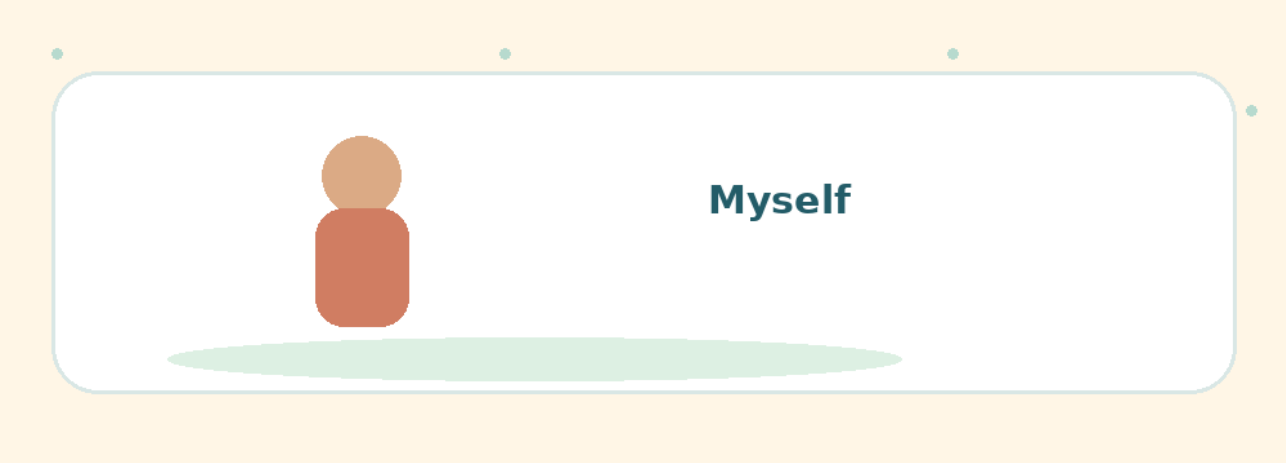

A. A broken brick B. An empty tin C. Growing leaves

10. Which sentence shows gratitude for life-sustaining gifts?

A. I will damage all plants B. Thank you for clean air and rain C. I will waste the water

LESSON 02 | I Am Unique and Valuable

All About Us • Myself

I can...

Identify actions that build a healthy sense of identity and self-worth.

Let’s learn

Every child has qualities, interests and abilities. We grow in self-worth when we notice our strengths, practise a skill, speak kindly about ourselves and seek encouragement. Nobody needs to look or act exactly like another person to have value.

Little story

Kwesi can tell stories, while Abena enjoys drawing. Their talents differ, yet both feel proud after sharing their work with classmates.

Try it together

In pairs, say one strength you have and one new skill you want to learn. Give your partner a kind, specific compliment.

Draw and discover

Draw yourself doing something you enjoy. Write: “I can learn and improve.”

PLAY — 5 questions

1. What does unique mean?

A. Exactly the same B. One of a kind C. Never learning

2. Which words show self-worth?

A. I am valuable B. I am useless C. I must copy everyone

3. What helps a new skill grow?

A. Hiding all the time B. Giving up immediately C. Practice

4. Which action shows self-knowledge?

A. Ignoring your interests B. Naming your strengths C. Insulting yourself

5. What is a kind response to a classmate’s talent?

A. Encourage them B. Take their work C. Laugh at them

CHALLENGE — 10 new questions

1. Efua is learning to read slowly. What can she tell herself?

A. I will never learn B. Only fast readers matter C. I can improve with practice

2. Kofi enjoys dancing but his friend enjoys farming. What should Kofi know?

A. Every child must dance B. Different interests are fine C. His friend has no value

3. A classmate praises your neat drawing. What is a healthy reply?

A. Thank you B. I am better than everybody C. Your work is bad

4. Adwoa makes a mistake in sums. What is the best next step?

A. Call herself foolish B. Tear the book C. Try again and seek help

5. What might build Ama’s confidence before a class poem?

A. Mock others B. Rehearse with a friend C. Avoid every activity

6. Your friend speaks a different language at home. Which response shows respect?

A. Value their background B. Refuse to listen C. Tell them to be ashamed

7. A child is good at caring for plants. What does this show?

A. Everyone has identical skills B. Only exams show talent C. A useful personal strength

8. What could a family member do to support a child’s self-worth?

A. Compare them harshly B. Notice their effort C. Ignore their progress

9. When a learner feels shy in a group, what can help?

A. Take a small speaking turn B. Force others to be silent C. Give up forever

10. Which sentence recognises both self-respect and respect for others?

A. Different children do not belong B. Only I matter C. We all have worth

LESSON 03 | We Help in Our Families

All About Us • My Family and the Community

I can...

Identify different family roles and age-appropriate responsibilities.

Let’s learn

Families care for one another in many ways. Adults usually provide essentials such as food, shelter, safety and schooling. Children can contribute through safe, suitable chores, kindness and cooperation. Roles may be shared differently across families.

Little story

After school, Sena packs her books while her grandmother prepares supper and her uncle checks the water supply. Everyone helps in a different way.

Try it together

Role-play a family planning how to keep the home tidy. Agree on chores that are safe for children and tasks adults should do.

Draw and discover

Draw three family members cooperating at home.

PLAY — 5 questions

1. Who should make sure children have safe shelter?

A. Young children alone B. Visitors only C. Responsible adults

2. Which is a suitable task for many children?

A. Repair live wires B. Arrange schoolbooks C. Drive a car

3. What can family members do together?

A. Share responsibilities B. Refuse to help C. Always quarrel

4. Which value helps a family cooperate?

A. Dishonesty B. Cruelty C. Kindness

5. Who may provide children’s schooling needs?

A. Only babies B. Parents or caregivers C. Only strangers

CHALLENGE — 10 new questions

1. Nana finishes eating and takes her plate to the sink. What is she showing?

A. Responsibility B. Rudeness C. Wastefulness

2. A heavy gas cylinder needs moving. What should a child do?

A. Lift it alone B. Roll it onto a road C. Ask an adult

3. A younger sibling drops crayons. How can Kojo help?

A. Kick them away B. Pick them up together C. Laugh and leave

4. Your aunt is ill and resting. What is thoughtful?

A. Keep noise low B. Shout beside her C. Hide her medicine

5. Two children want the same broom. What is a fair plan?

A. Break it B. Fight over it C. Take turns

6. The adults in a family work outside home. Can children still help safely?

A. Only if paid B. Yes, with suitable chores C. No, kindness is pointless

7. A child sees a sharp farm tool. What is responsible?

A. Leave it for a trained adult B. Throw it at friends C. Play with it

8. A caregiver is carrying groceries. What can an older child safely do?

A. Demand more bags B. Block the doorway C. Carry light items

9. A family chooses different chores for each person. Why?

A. One child has no value B. Abilities and needs differ C. Everyone must do the same job

10. At the end of a shared task, which words build togetherness?

A. Thank you for helping B. Your help meant nothing C. Do not help again

LESSON 04 | Rules Keep Us Safe

All About Us • Home and School

I can...

Explain why fair rules at home and school matter.

Let’s learn

Rules help people stay safe, learn and live peacefully. We follow classroom directions, care for shared materials and speak respectfully. If a rule feels confusing or unfair, a learner can ask a trusted adult for an explanation.

Little story

A bell rings and Mensah walks calmly to class. Because pupils follow the corridor rules, younger children also pass safely.

Try it together

In groups, act out a safe and an unsafe way to use the school corridor. Make a short rhyme about caring for shared places.

Draw and discover

Create a colourful poster with one fair classroom rule.

PLAY — 5 questions

1. Why do schools have rules?

A. To help everyone learn safely B. To frighten visitors C. To spoil learning

2. Which rule helps a tidy classroom?

A. Throw paper on the floor B. Damage desks C. Put litter in a bin

3. What should pupils do when others speak?

A. Shout over them B. Listen respectfully C. Leave the room

4. What rule is sensible near a road?

A. Use a safe crossing B. Race into traffic C. Play in the roadway

5. What should you do if you do not understand a rule?

A. Insult others B. Ignore it forever C. Ask a trusted adult

CHALLENGE — 10 new questions

1. Esi borrows a library book. How can she follow the rules?

A. Hide it B. Return it carefully C. Tear its pages

2. A ball rolls toward the car park. What should pupils do?

A. Tell an adult and stay safe B. Push each other C. Run among moving cars

3. During an exam, a friend wants your answer. Which action is honest?

A. Copy secretly B. Swap papers C. Work on your own

4. A visitor enters class while the teacher is speaking. What is respectful?

A. Interrupt with shouting B. Wait for a suitable moment C. Throw chalk

5. Two classmates disagree about queue order. What helps?

A. Follow the agreed line B. Push forward C. Start a fight

6. Someone damages a school tap. What should a pupil do?

A. Hide the leak B. Join in C. Report the problem

7. A learner arrives late for assembly. What is considerate?

A. Shout jokes B. Join quietly as directed C. Run through the crowd

8. At home, a child sees spilled water near a socket. What is safest?

A. Tell an adult immediately B. Splash more water C. Touch the socket

9. At playtime a game has safety rules. Why follow them?

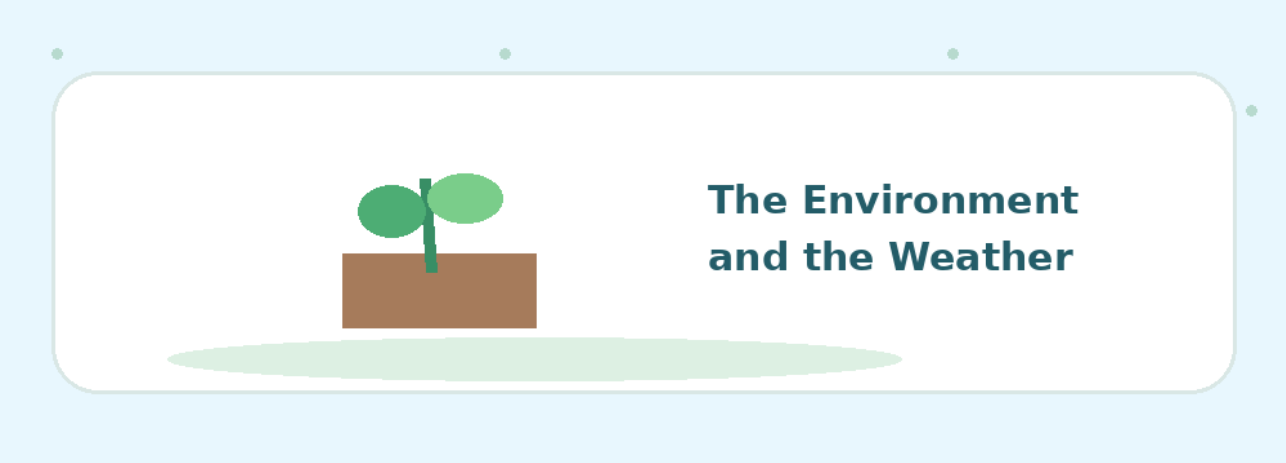

A. To make injuries fun B. To stop friendship C. To protect players

10. Classmates propose a new cleanup rule. How can the class decide?

A. Let one pupil threaten others B. Discuss fairly with the teacher C. Ignore all views

LESSON 05 | A Clean and Safe Environment

All Around Us • The Environment and the Weather

I can...

Describe ways to keep surroundings clean and safe.

Let’s learn

Our surroundings include trees, soil, water, buildings and roads. Rubbish blocks drains and can harm people and animals. Putting waste in the right place, protecting water bodies, planting trees and following safety rules help our community.

Little story

Near the classroom, children find sachet wrappers beside a bin. Wearing suitable protection and with adult guidance, they collect the litter and make a reminder poster.

Try it together

Go on a supervised school nature walk. List two natural things, two human-made things and three ways to care for the place.

Draw and discover

Draw a before-and-after picture of a school compound.

PLAY — 5 questions

1. Which is a natural part of the environment?

A. A car B. A tree C. A plastic chair

2. Where should ordinary litter go?

A. A suitable waste bin B. A classroom floor C. A stream

3. What helps protect land?

A. Bush burning B. Dumping wrappers C. Planting trees

4. Who can help keep public places clean?

A. Only visitors B. Everyone C. Only pets

5. Which action protects clean water?

A. Keep waste out of streams B. Wash rubbish into rivers C. Pour oil into drains

CHALLENGE — 10 new questions

1. A sachet blows across the playground. What should you do safely?

A. Leave it for animals B. Kick it into a drain C. Put it in the correct bin

2. After a storm, a drain is blocked. Who should children alert?

A. A small baby B. A responsible adult C. Nobody

3. A family visits a river. Which behaviour is best?

A. Take their rubbish home B. Burn plastic on the bank C. Throw bottles into water

4. A gardener plants a shade tree. What benefit may it give?

A. More broken glass B. Blocked walkways forever C. Cleaner and cooler surroundings

5. Kojo notices a sharp piece of metal. What is safest?

A. Pick it up with bare hands B. Tell a teacher C. Use it as a toy

6. People want to burn dry bushes next to houses. What is sensible?

A. Avoid bush burning and alert adults B. Light the fire C. Play beside flames

7. During school cleanup, what can pupils do?

A. Climb unsafe roofs B. Handle unknown chemicals C. Sweep with supervision

8. An empty can lies on a footpath. What is one concern?

A. It makes water cleaner B. Someone may trip or get hurt C. It will become a tree

9. A town wants healthier surroundings. Which action helps?

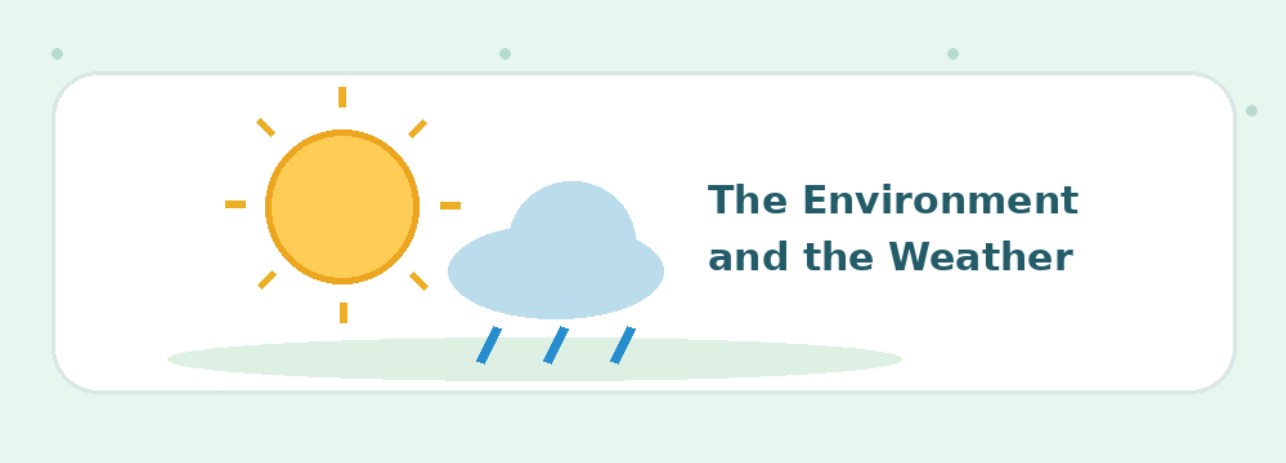

A. Provide proper waste collection B. Leave garbage on roads C. Dump sewage into wells

10. A class makes an environment pledge. Which promise fits?

A. I will scatter litter B. I will destroy young plants C. I will care for shared places

LESSON 06 | Let Us Watch the Weather

All Around Us • The Environment and the Weather

I can...

Name and observe basic weather elements.

Let’s learn

Weather describes outdoor conditions at a time. We can notice temperature, rainfall, wind, humidity and cloud cover. Symbols on a weather chart help us share observations across the week.

Little story

On Monday the air feels hot and the sky is clear. On Tuesday grey clouds gather and raindrops fall. The class records both days on a chart.

Try it together

Make a five-day weather chart. Each day draw a symbol and say whether it is hot, cool, cloudy, windy or rainy.

Draw and discover

Draw symbols for a sunny, rainy, cloudy and windy day.

PLAY — 5 questions

1. What tells us how hot or cool the air is?

A. Population B. Homework C. Temperature

2. What is water falling from clouds called?

A. Sunlight B. Rainfall C. Smoke

3. What is moving air called?

A. Wind B. Rock C. Soil

4. What can cover much of the sky?

A. Chairs B. Books C. Clouds

5. What chart can show daily outdoor conditions?

A. Shopping receipt B. Weather chart C. School register

CHALLENGE — 10 new questions

1. A flag flaps strongly on the pole. Which element is noticeable?

A. Wind B. Rainfall only C. Ground colour

2. Pupils carry umbrellas as drops fall. Which symbol suits the chart?

A. Shoe B. Bright star at night C. Rain cloud

3. In the afternoon it feels sticky and damp. Which element may be high?

A. Book weight B. Humidity C. Class attendance

4. No cloud can be seen overhead. What should the class record?

A. Clear sky B. A thunderstorm C. Heavy cloud cover

5. Children feel cold after sunrise. Which word describes temperature?

A. Tall B. Loud C. Cool

6. Leaves move in a breeze. What observation belongs in the weather diary?

A. There are 20 pupils B. It is breezy C. The board is white

7. A cloud appears dark before showers. What should pupils observe next?

A. Whether rain begins B. The number of desks C. The teacher’s shoes

8. Which tool is commonly used to measure air temperature?

A. Chalk B. Ruler for height C. Thermometer

9. Why compare Monday and Friday weather?

A. To count classrooms B. To notice changes C. To prove weather never changes

10. A class draws a sun partly behind a cloud. What does it suggest?

A. Partly cloudy weather B. Total darkness C. A broken clock

LESSON 07 | Important Crops Around Us

All Around Us • Plants and Animals

I can...

Explore useful crops in the community and how to care for them.

Let’s learn

Ghanaian communities grow crops such as maize, yam, cocoa and shea trees. Some provide food and others earn income when sold. Plants need suitable care, including water, healthy soil and protection from damage.

Little story

A farmer shows pupils maize cobs and cocoa pods. The class sorts the pictures into food crops and crops that can be sold for income.

Try it together

Observe a school plant without damaging it. Ask an adult which crops grow nearby and what farmers do to help them.

Draw and discover

Draw a maize plant and a cocoa pod, then label them.

PLAY — 5 questions

1. Which crop produces maize grains?

A. Maize plant B. Iron pole C. Tin cup

2. Which Ghanaian crop grows in pods?

A. Salt B. Plastic C. Cocoa

3. What underground food crop can be boiled or pounded?

A. Glass B. Yam C. Chalk

4. What helps young crops grow?

A. Water and care B. Tearing leaves C. Trampling on them

5. Why do farmers sell some crops?

A. To make rubbish B. To spoil food C. To earn income

CHALLENGE — 10 new questions

1. A cocoa farmer collects ripe pods. Which part is harvested?

A. Stones B. Cocoa pods C. Road signs

2. Akosua plants maize seeds. What should she do during dry weather?

A. Water them appropriately B. Pour soap on them C. Pull every seed out

3. A trader sells harvested yams. How do the crops help?

A. Replace every tool B. Cause rain to stop C. Provide food and income

4. A pupil sees a broken plant stem. What is caring behaviour?

A. Step on it B. Avoid further damage C. Pull off the roots

5. Children see shea trees near a village. What may their nuts be used for?

A. Shea butter B. Producing plastic tyres C. Making pencils automatically

6. A family wants healthy garden soil. Which action helps?

A. Scatter sharp glass B. Pour waste oil C. Add suitable compost

7. Before making a crop poster, what can learners do?

A. Guess without looking B. Observe real crops or clear pictures C. Copy unrelated words

8. A farmer protects a new seedbed from goats. Why?

A. To prevent plants being eaten B. To increase trampling C. To dry all roots

9. What is an important community benefit of farming?

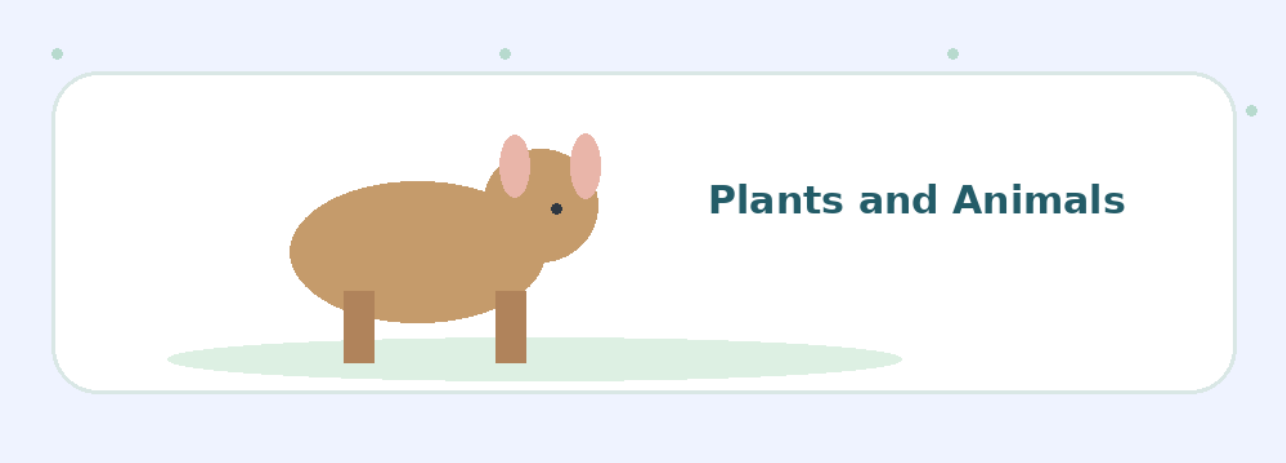

A. No harvests B. More litter C. Jobs and food

10. Which statement describes plant care?

A. Let rubbish bury the crops B. Use water and avoid damaging seedlings C. Cut every new leaf

LESSON 08 | Animals in Our Community

All Around Us • Plants and Animals

I can...

Identify important domestic animals and ways to care for them.

Let’s learn

Domestic animals such as goats, sheep, chickens and cattle may provide food, income or help families earn a living. They need clean water, appropriate feed, safe shelter and gentle handling. Children should observe unfamiliar animals from a safe distance.

Little story

At a poultry farm, Amina sees chickens eating feed and drinking fresh water. The caretaker explains why the birds need a clean, safe place.

Try it together

Ask a trusted adult how one animal is cared for. Make a kindness checklist: water, food, cleanliness and safety.

Draw and discover

Draw a domestic animal beside its water container.

PLAY — 5 questions

1. Which is a common domestic animal?

A. School desk B. Goat C. River stone

2. What should animals drink?

A. Clean water B. Paint C. Detergent

3. What helps chickens stay healthy?

A. No food B. Sharp rubbish C. Clean shelter

4. Why are some animals raised on farms?

A. To replace roads B. For food or income C. To spoil crops on purpose

5. How should children treat animals?

A. With kindness B. By frightening them C. By kicking them

CHALLENGE — 10 new questions

1. A goat looks thirsty in the heat. What should its carer provide?

A. Sweet wrappers B. Dust C. Fresh water

2. A hen’s pen is very dirty. What should the keeper arrange?

A. More litter B. Safe cleaning C. A blocked drain

3. A child sees a strange aggressive dog. What is safest?

A. Keep distance and tell an adult B. Pull its tail C. Run toward it shouting

4. A poultry keeper gathers eggs. What are eggs an example of?

A. A weather element B. A metal tool C. A useful animal product

5. Farmers sell sheep in the market. What can this provide?

A. Less food for everyone B. Household income C. A new river

6. A calf needs protection from storms. What helps?

A. Suitable shelter B. A rubbish heap C. An open unsafe road

7. A child wants to feed a neighbour’s animal. What should happen first?

A. Give it unknown food B. Throw stones C. Ask the owner or carer

8. Which animal commonly gives milk?

A. Butterfly B. Cow C. Lizard

9. Why visit a farm with a teacher?

A. To observe safely B. To chase animals C. To open every enclosure

10. What shows kindness to domestic animals?

A. Hurt them for fun B. Leave them without water C. Provide good feed and care

LESSON 09 | My Classroom from Above

All Around Us • Map Making and Land Marks

I can...

Sketch a classroom and show where objects are located.

Let’s learn

A simple classroom map is a drawing of where things are found. A desk may be beside a window, while the door may be near the front. We can use familiar shapes, labels and position words to make a useful sketch.

Little story

Adjetey stands near the door and looks across the room. His drawing uses rectangles for desks and a small mark for the teacher’s table.

Try it together

Look around your classroom. Work with a partner to sketch its outline and place the door, board and four desks in suitable positions.

Draw and discover

Draw a rectangle for the room and add small shapes for tables and chairs.

PLAY — 5 questions

1. What is a classroom sketch?

A. A weather report B. A shopping bill C. A simple drawing of the room

2. Which shape could show a rectangular desk?

A. Raindrop B. Rectangle C. Cloud

3. What helps readers know what a mark means?

A. A label B. A loud shout C. An erased line

4. Which is a position word?

A. Loudly B. Tomorrow C. Beside

5. What should a map show?

A. A story with no places B. Where objects are located C. Only favourite colours

CHALLENGE — 10 new questions

1. A pupil wants to show the classroom door. What should be added?

A. A door mark in the correct place B. A rain cloud outside C. An animal instead

2. Two desks are next to each other. Which description fits?

A. One is yesterday B. Both are invisible C. The desks are side by side

3. A drawing has no board marked. What should the pupil improve?

A. Erase every desk B. Add and label the board C. Draw only a sun

4. The window is opposite the door. How can the map show this?

A. Place marks on opposite sides B. Put both outside the room C. Ignore their positions

5. What can pupils use to observe a school building responsibly?

A. A broken mirror B. An unsafe drone flight C. Their eyes and a teacher-guided camera

6. A class has round stools. Which shape might help represent them?

A. Clouds B. Circles C. Long paragraphs

7. Why share sketches with classmates?

A. Compare positions and improve B. Stop learning C. Destroy other drawings

8. Which view often makes a simple room map easier?

A. Looking only at shoes B. Closing both eyes C. Looking down from above

9. A library is beside the classroom. How might it be shown?

A. A cooking recipe B. A labelled neighbouring shape C. A weather symbol

10. A child drew the door at the wrong wall. What is a helpful response?

A. Check the room and correct it B. Pretend the error is a law C. Throw the paper away

LESSON 10 | When Numbers of People Change

All Around Us • Population and Settlement

I can...

Explain how to adjust when the number of people in a group changes.

Let’s learn

Population can change when people join or leave a class, family or community. We may need to share resources, make space and welcome new people. Fairness, patience and respect help everyone adjust.

Little story

Three new pupils join a class. The group rearranges its reading circle, shares picture cards and makes introductions so everyone feels included.

Try it together

Use counters to show a group of five, add two and remove one. Explain what the group might need when numbers change.

Draw and discover

Make a small bar chart of the number of people in three imaginary families.

PLAY — 5 questions

1. What happens when someone joins a class?

A. Class size increases B. The classroom vanishes C. Class size always stays equal

2. What happens when someone leaves a group?

A. The number doubles automatically B. The group becomes a map C. The number becomes smaller

3. What can help a new learner feel included?

A. Ignoring them B. A friendly welcome C. Laughing at their accent

4. Which value helps people share crowded spaces?

A. Tolerance B. Selfishness C. Bullying

5. How can a bar chart help?

A. Replace all lessons B. Make rain fall C. Show numbers clearly

CHALLENGE — 10 new questions

1. There are 20 pupils and two join. What is the new total?

A. 12 B. 22 C. 18

2. A bus stop becomes busy. What is a respectful action?

A. Queue patiently B. Block the road C. Push strangers

3. Ama’s family has a new baby. What may change at home?

A. All rooms become roads B. The family has fewer members C. People may share space and time

4. A reading group loses one member. What can the rest do?

A. Stop respecting each other B. Adjust their tasks fairly C. Hide the books

5. Four children share eight crayons equally. How many each?

A. Two B. Eight each C. Zero

6. A school welcomes new pupils. What might staff arrange?

A. Broken chairs B. Fewer safety exits C. Extra seating or materials

7. Kweku sees a new child sitting alone. What should he do?

A. Point and mock B. Invite the child kindly C. Tell them to leave

8. Why should people respect one another when a town grows?

A. Everyone has rights and needs B. Sharing becomes forbidden C. Only old residents matter

9. A chart shows five people at one home and three at another. Which has more?

A. The home with three B. They are equal C. The home with five

10. A pupil moves away. What is a kind class response?

A. Spread rumours B. Say goodbye respectfully C. Erase the pupil’s work

LESSON 11 | Respecting Ways of Worship

Our Beliefs and Values • Worship

I can...

Explain why worship matters to believers and how to respect different practices.

Let’s learn

In Ghana, Christians, Muslims and followers of African Traditional Religion may worship in different places and ways. Worship can express gratitude, devotion and commitment. Respect means allowing others to practise their faith peacefully without teasing or pressure.

Little story

Two friends describe family worship practices. They notice some differences, but agree that listening kindly keeps their friendship strong.

Try it together

Look at teacher-provided pictures of a church, mosque and traditional worship setting. Discuss shared values such as peace and respect.

Draw and discover

Draw a peaceful scene in which neighbours of different backgrounds greet one another.

PLAY — 5 questions

1. What is one reason people worship?

A. To win every game B. To express devotion and gratitude C. To harm neighbours

2. Where may Christians gather for worship?

A. Church B. Class cupboard C. Bus engine

3. Where may Muslims gather for worship?

A. Petrol station B. Football boot C. Mosque

4. What is a respectful attitude to another faith?

A. Mockery B. Tolerance C. Hatred

5. Which value can religious neighbours share?

A. Peace B. Bullying C. Dishonesty

CHALLENGE — 10 new questions

1. A learner describes prayer at home. What should classmates do?

A. Tell them to hide B. Shout insults C. Listen respectfully

2. A family attends a religious gathering. What might they show?

A. Carelessness with others B. Commitment to their beliefs C. Dislike of learning

3. Two children worship differently. Can they still be friends?

A. Yes, with mutual respect B. Only if they quarrel C. No, never

4. A pupil does not wish to recite another faith’s prayer. What is fair?

A. Force them B. Ridicule them C. Respect their choice

5. During a visit to a place of worship, what should children follow?

A. Loud disturbances B. Visitor guidance and courtesy C. Damaging objects

6. A friend observes a day of prayer. How can another child respond?

A. Be considerate B. Mock their practice C. Interrupt deliberately

7. Which action supports peaceful coexistence?

A. Fighting B. Name-calling C. Kind conversation

8. A class studies Ghana’s main religious traditions. What is the learning aim?

A. Demand identical beliefs B. Understand and respect practices C. Rank children’s worth

9. Your neighbour has a festival service. Which greeting is considerate?

A. A polite good wish B. A threat C. An insult

10. What should a class do when describing a tradition?

A. Invent hurtful rumours B. Dismiss every explanation C. Use respectful words

LESSON 12 | Festivals Bring People Together

Our Beliefs and Values • Festivals

I can...

Describe activities that take place during festivals celebrated in Ghana.

Let’s learn

Festivals bring people together through worship, family visits, music, food, giving and community activities. Examples studied include Christmas, Easter, Eid-ul-Fitr, Eid-ul-Adha, Kundum, Odwira, Damba, Bugum and Yam festivals. Different communities celebrate in different ways.

Little story

At a local celebration, a family welcomes visitors, shares food and listens to music. A child sketches the gathering for a class display.

Try it together

Ask adults about one local festival. Compare two activities such as sharing food, prayer, music or family reunion.

Draw and discover

Draw a respectful festival scene showing people sharing or greeting.

PLAY — 5 questions

1. Which is a Christian festival?

A. Class election B. Cocoa harvesting C. Christmas

2. Which is a Muslim festival?

A. Book week B. Eid-ul-Fitr C. Sports day

3. Which is named as a traditional festival in Ghana?

A. Damba B. Traffic day C. A spelling test

4. What commonly happens during festivals?

A. Only silence in every home B. Closing every market forever C. Family gatherings

5. What value can sharing festival food teach?

A. Greed B. Generosity C. Bullying

CHALLENGE — 10 new questions

1. Two relatives return home during a celebration. Which festival activity is this?

A. Family reunion B. Measuring rain C. Repairing a road

2. A community performs drumming and dancing. What might this be?

A. An electric circuit B. A maths answer C. A cultural celebration

3. Neighbours exchange kind greetings at Easter. What does this show?

A. Carelessness B. Togetherness C. Hostility

4. A family gives food to others during Eid. Which value is shown?

A. Sharing B. Wastefulness C. Stealing

5. During Odwira, community members meet. How should visitors behave?

A. Disrupt activities B. Mock performers C. Observe respectfully

6. A child makes a poster of a festival procession. What is useful to include?

A. Random unrelated numbers B. People’s activities C. A false accusation

7. A festival includes prayers. Which aspect is being shown?

A. Religious devotion B. Road construction C. Animal medicine

8. Families cook a special meal together. What may children learn?

A. How to waste food B. How to quarrel C. Cooperation

9. A learner is unfamiliar with Bugum. What is a good first step?

A. Laugh at its name B. Ask respectful questions C. Spread unverified claims

10. Different festivals have different customs. What attitude helps the class?

A. Appreciate diversity B. Refuse to learn C. Insist all celebrations look alike

LESSON 13 | How Families Show Commitment

Our Beliefs and Values • Festivals

I can...

Identify ways families may express commitment to their faith.

Let’s learn

Families may express religious commitment through prayer, worship gatherings, giving, fasting or helping neighbours. Traditions differ among Christian, Muslim and African Traditional Religion families. In class we learn about practices, not judge a child’s personal faith.

Little story

Mariam tells a friend that her family gives to people in need. Her friend shares a different family tradition, and both notice that caring for others matters.

Try it together

With an adult, learn about one family or community practice. Make a respectful two-column comparison of ways people show commitment.

Draw and discover

Draw two hands helping someone in the community.

PLAY — 5 questions

1. What is one way a family may show religious commitment?

A. Prayer B. Stealing C. Teasing

2. What does giving to people in need show?

A. Disrespect B. Greed C. Care

3. Which is a group place of Muslim worship?

A. Market scale B. Mosque C. Football field only

4. What is a respectful way to learn about another tradition?

A. Ask politely B. Interrupt angrily C. Mock it

5. Why might a family observe fasting?

A. To spoil textbooks B. To make clouds C. As a religious practice

CHALLENGE — 10 new questions

1. A family attends a weekly service. What does this activity express?

A. Dishonesty B. Commitment C. Littering

2. A Christian family has morning devotion. What might they do?

A. Pray or read a sacred passage B. Damage property C. Shout at neighbours

3. A Muslim family shares sadaqah. What is the action about?

A. Buying traffic lights B. Throwing rubbish C. Voluntary giving

4. A family follows an African Traditional Religion practice. What should a classmate do?

A. Refuse their friendship B. Describe it respectfully C. Claim the child has less worth

5. A learner keeps a special prayer time. How can friends help?

A. Avoid needless interruption B. Hide their belongings C. Deliberately disturb

6. Two families practise worship differently. What should be expected in class?

A. A popularity contest B. One correct pupil C. Equal respect

7. A household donates food to vulnerable neighbours. Which value is shown?

A. Selfishness B. Compassion C. Cruelty

8. A pupil has no religious practice to share. How should the teacher respond?

A. Allow respectful participation without pressure B. Punish their silence C. Exclude the pupil

9. What can families do after talking about religious differences?

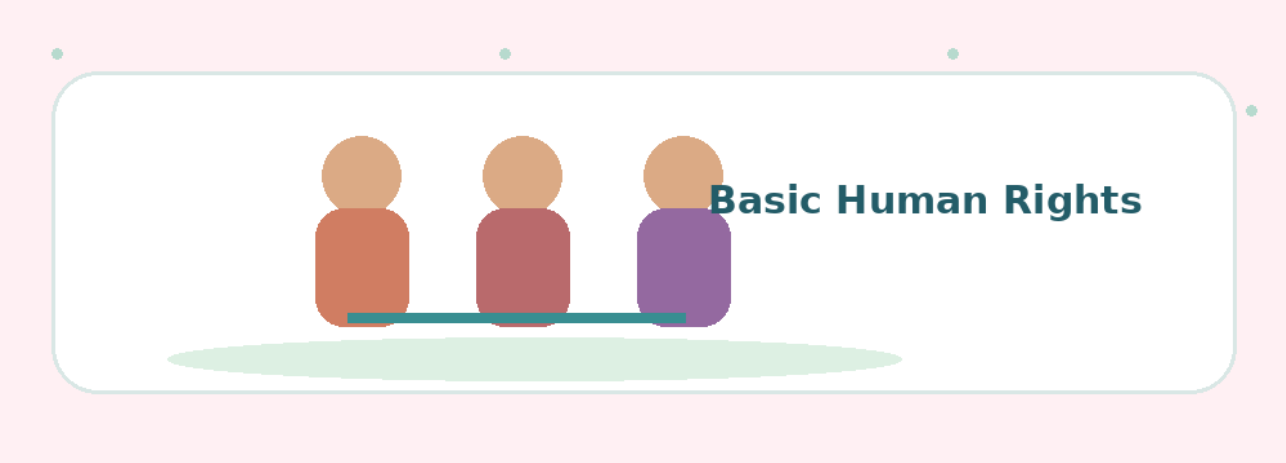

A. Stop cooperating B. Begin a quarrel C. Find shared values such as kindness

10. A child sees a neighbour observing a quiet religious day. What is courteous?

A. Ridicule them B. Respect their space C. Blast noise beside them

LESSON 14 | My Rights and Your Rights

Our Beliefs and Values • Basic Human Rights

I can...

Explain why everybody should be allowed to enjoy their rights.

Let’s learn

Every child deserves dignity, safety and fair treatment. Rights come with responsibilities to respect the rights of others. Listening, taking turns, avoiding bullying and allowing everyone to join safe activities help create peace.

Little story

At playtime, pupils notice one child is always left out. They change the game so everyone has a fair chance to participate.

Try it together

Role-play a disagreement over shared materials. Practise asking, listening, taking turns and finding a fair solution.

Draw and discover

Draw a playground where all children have space to participate.

PLAY — 5 questions

1. What does respecting rights mean?

A. Taking everything B. Treating others fairly C. Leaving others unsafe

2. Which action respects classmates?

A. Listening to their ideas B. Silencing everyone C. Calling names

3. Who deserves basic rights?

A. Only tall children B. Only class leaders C. Every person

4. What can respecting rights promote?

A. Violence B. Peace C. Bullying

5. What should children do with shared resources?

A. Take turns fairly B. Destroy them C. Keep them forever

CHALLENGE — 10 new questions

1. A new pupil speaks softly. How can the group respect their voice?

A. Laugh loudly B. Interrupt each sentence C. Give them time to speak

2. Two teams argue about the field. Which solution is fair?

A. Lock out the smaller team B. Agree on turns C. Fight

3. A learner uses a mobility aid. What should classmates do?

A. Make room and include them B. Block the path C. Hide the aid

4. Someone is teased because of their name. What should a bystander do?

A. Share more insults B. Join the teasing C. Seek help and show kindness

5. A child needs quiet time to read. What respects this need?

A. Take their book B. Keep a suitable noise level C. Shout in their ear

6. A class has only four pencils for six pupils. What can they do?

A. Plan turns and share B. Break pencils C. Let one person keep all

7. A younger child asks for help. What is the kind response?

A. Push them away B. Mock the request C. Listen or find an adult

8. Your friend has a different opinion. What shows tolerance?

A. Demand silence B. Hear them out respectfully C. Threaten them

9. A class wants peaceful teamwork. What should members avoid?

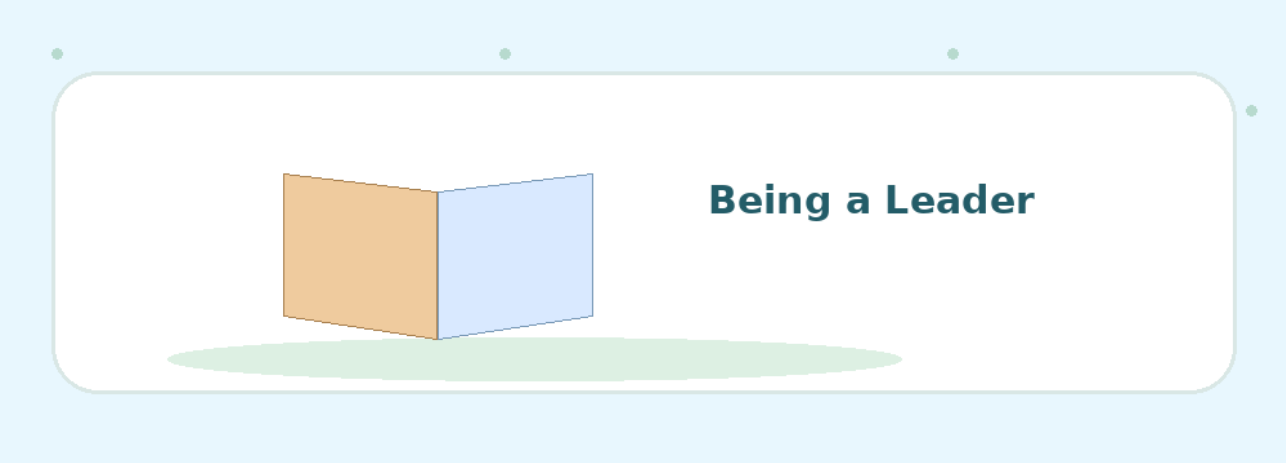

A. Bullying and exclusion B. Cooperation C. Fair turns

10. Which sentence connects rights and responsibilities?

A. Only strong people have rights B. My rights remove yours C. I respect others as I wish to be respected

LESSON 15 | Learning from Religious Leaders

Our Beliefs and Values • Being a Leader

I can...

Recount selected early-life stories of religious leaders and identify good values.

Let’s learn

Ghanaian learners study leaders from Christianity, Islam and African Traditional Religion, including Jesus Christ, Prophet Muhammad and traditional figures such as Okomfo Anokye. Families and teachers may share age-appropriate accounts about their early lives. We focus on how stories encourage honesty, care, patience and service.

Little story

A teacher reads brief traditional and religious stories chosen from approved materials. Pupils listen, retell a scene in their own words and name a helpful moral value.

Try it together

With a teacher, select one age-appropriate early-life account from an authentic source. Retell what happened first, next and last; identify one value to practise.

Draw and discover

Draw a three-box story sequence: beginning, middle and end.

PLAY — 5 questions

1. Which leader is central to Christianity?

A. A weather forecaster B. A farm tool C. Jesus Christ

2. Which leader is central to Islam?

A. A telephone maker B. Prophet Muhammad C. A classroom desk

3. Which name appears among Ghanaian traditional leaders studied?

A. Okomfo Anokye B. A plastic bottle C. A road sign

4. What is an early-life story about?

A. Only classroom furniture B. Tomorrow’s weather C. A person’s younger years

5. What can learners seek in leaders' stories?

A. Reasons to waste food B. Good moral lessons C. Ways to bully

CHALLENGE — 10 new questions

1. A story shows a child telling the truth. What value is taught?

A. Honesty B. Greed C. Cheating

2. During a retelling, a pupil forgets the middle event. What helps?

A. Invent a harmful claim B. Stop respecting the story C. Return to the source

3. A lesson compares three religious traditions. What attitude is needed?

A. Mockery B. Respect for all C. Competition about pupils' worth

4. A leader’s story highlights helping someone poor. What value could it teach?

A. Compassion B. Selfishness C. Cruelty

5. The class wants to perform a short drama. What should they do first?

A. Invent fake biographies B. Make insulting jokes C. Choose a respectful accurate scene

6. A traditional elder shares an oral account. What should learners do?

A. Pretend they heard nothing B. Listen and ask careful questions C. Interrupt with insults

7. A story has a difficult detail that is not in the source. What should pupils do?

A. Say they do not know B. Present guesses as fact C. Make up dates

8. A pupil explains a lesson in patience. How can they apply it?

A. Push into a line B. Shout at helpers C. Wait calmly for a turn

9. Two biographies come from different traditions. What should pupils compare?

A. Which child is most important B. Values and events respectfully C. Who can mock more

10. Why might people learn about past religious leaders?

A. To reflect on positive conduct B. To avoid kindness C. To damage places of worship

LESSON 16 | Values That Build Our Community

Our Nation Ghana • Being a Citizen

I can...

Explain values that community members cherish.

Let’s learn

Communities work well when people show honesty, respect, tolerance, hard work, kindness, volunteering and teamwork. Children practise citizenship when they help with safe community work, protect shared property and treat neighbours fairly.

Little story

During a school cleanup, one group sweeps, another sorts materials and a third thanks the helpers. Each group contributes to the common good.

Try it together

Act out a short scene showing honesty or tolerance. Ask the class what the characters did well and why it helped.

Draw and discover

Design a badge with three good citizenship values.

PLAY — 5 questions

1. Which value means telling the truth?

A. Honesty B. Rudeness C. Greed

2. What is teamwork?

A. Working against everyone B. Breaking tools C. Working together

3. What is tolerance?

A. Refusing to listen B. Respect for differences C. Being cruel

4. Which action shows volunteerism?

A. Helping freely B. Demanding rewards to be kind C. Damaging a school

5. What does hard work involve?

A. Ignoring all duties B. Giving up at once C. Giving steady effort

CHALLENGE — 10 new questions

1. Kofi finds a lost schoolbag. What action shows honesty?

A. Throw it away B. Give it to a responsible adult C. Keep it secretly

2. A visitor speaks another Ghanaian language. What value should pupils show?

A. Respect B. Fear C. Mockery

3. Three children paint a community poster together. What makes the task easier?

A. Quarrelling B. Hiding supplies C. Cooperation

4. Abena helps an older neighbour carry a light parcel. What value is shown?

A. Dishonesty B. Kindness C. Disrespect

5. A pupil disagrees with a class vote. What is a tolerant response?

A. Accept the decision peacefully B. Destroy the ballot C. Insult everyone

6. Children plant trees on a school day. Why is this citizenship?

A. They ignore their community B. They damage the environment C. They care for shared surroundings

7. A friend struggles to complete a class task. What can show teamwork?

A. Walk away cruelly B. Offer suitable help C. Laugh at mistakes

8. A pupil sees a broken tap left running. What action is responsible?

A. Report it and save water safely B. Break another tap C. Ignore the waste

9. Classmates choose a leader who serves others. Which trait matters?

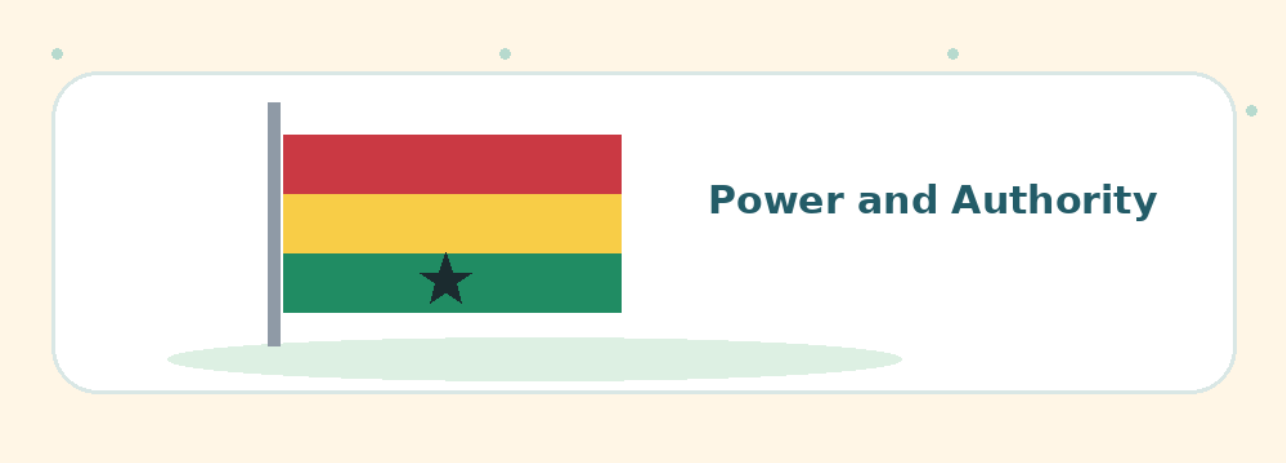

A. Bullying B. Selfishness C. Reliability

10. A town festival needs volunteers to tidy afterward. What can suitable pupils do?

A. Handle dangerous waste alone B. Help with safe supervised tasks C. Scatter litter

LESSON 17 | I Respect Ghana’s Symbols

Our Nation Ghana • Power and Authority

I can...

Explain ways to appreciate and protect national symbols.

Let’s learn

National symbols remind us that we belong to Ghana. They include the national flag, coat of arms and national anthem. Showing respect during the anthem, treating flags carefully and protecting public property are ways to show responsible citizenship.

Little story

At assembly, the school prepares to sing Ghana’s national anthem. The pupils stand respectfully and follow their teacher’s guidance.

Try it together

Observe a drawing of the Ghana flag. Discuss safe, respectful ways to display or care for it, and practise suitable assembly behaviour.

Draw and discover

Colour the three horizontal bands of the Ghana flag red, gold and green, with a black star in the middle.

PLAY — 5 questions

1. Which of these is a national symbol of Ghana?

A. One pupil’s bag B. The national flag C. A chalk box

2. How can pupils behave during the national anthem?

A. Stand respectfully B. Play loud games C. Push each other

3. What is at the centre of Ghana’s flag?

A. A blue circle B. A white triangle C. A black star

4. What colours form the flag’s horizontal bands?

A. Purple, blue and pink B. Red, gold and green C. Black, white and grey

5. Why do national symbols matter?

A. They express national identity B. They replace school subjects C. They belong to one family only

CHALLENGE — 10 new questions

1. A small flag falls on the ground during an event. What should an adult help do?

A. Tear it B. Stamp on it C. Pick it up carefully

2. When the anthem begins at assembly, a pupil keeps talking. What is better?

A. Run across the stage B. Pause and show respect C. Shout louder

3. A class draws the coat of arms. What should they use?

A. A correct reference picture B. A road sign instead C. An invented random logo

4. A child sees damage to a public flagpole. What is responsible?

A. Join in damaging it B. Hide the incident C. Report it safely

5. Someone wants to learn the national pledge. What should they do?

A. Make up insulting words B. Practise its correct words C. Ignore their teacher

6. At a school celebration, flags need to be stored. Which action is careful?

A. Fold or keep them properly B. Leave them in muddy water C. Use them to sweep

7. What can respect for Ghana’s symbols encourage?

A. Wastefulness B. Bullying C. Patriotism

8. A visiting learner asks what the black star means. What is a good response?

A. Say flags have no meaning B. Explain that it is a national emblem C. Laugh at the question

9. During anthem practice, a pupil forgets a line. How can peers help?

A. Support patient learning B. Tell them never to sing C. Mock the pupil

10. Ghanaian pupils see different flags at an event. What is appropriate?

A. Damage unfamiliar flags B. Fight over flags C. Respect other nations' symbols too

LESSON 18 | Save Energy Every Day

Our Nation Ghana • Responsible Use of Resources

I can...

Describe ways to conserve energy at home, school and in the community.

Let’s learn

Conserving energy means using only what we need instead of wasting it. We can switch off lights and fans when not needed, use sunlight during the day and avoid leaving televisions running without a purpose. Only adults should handle unsafe wiring or electrical faults.

Little story

Before leaving class, Pearl notices the lights are still on although the room is empty. She tells the teacher so the electricity is not wasted.

Try it together

Make an energy-saving checklist for one classroom. Use it with teacher guidance before closing time.

Draw and discover

Draw a sunny room with windows open and an unused light switched off.

PLAY — 5 questions

1. What does conserve energy mean?

A. Break appliances B. Keep everything on C. Avoid wasting energy

2. Which action saves electricity?

A. Open a fridge for fun B. Switch off an unused fan C. Leave all lights on overnight

3. What natural light can be used in daytime?

A. Sunlight B. Fireworks C. Torch batteries only

4. Which item commonly uses electricity?

A. Stone B. Plant leaf C. Television

5. Who should deal with dangerous electrical wiring?

A. A child playing B. A trained adult C. An unsupervised group

CHALLENGE — 10 new questions

1. Nobody is watching the TV. What saves energy?

A. Turn it off appropriately B. Raise the volume C. Leave it all day

2. An empty classroom has lights on at noon. What should pupils tell a teacher?

A. The walls must be painted B. More lights are needed C. Lights may be switched off

3. A family opens curtains on a bright morning. How does this help?

A. Makes the sun disappear B. Uses natural daylight C. Creates electricity from chalk

4. A fan runs in an empty room. Which action is sensible?

A. Switch it off safely B. Cover it with cloth while on C. Let it run forever

5. You find a damaged electrical plug. What should you do?

A. Touch exposed wires B. Pour water on it C. Stay clear and inform an adult

6. Which kind of energy can a solar panel use?

A. Litter B. Sunlight C. Broken glass

7. A school plans energy-saving posters. Which message fits?

A. Use power wisely B. Leave devices on always C. Waste electricity

8. A mobile device is fully charged. What could a responsible adult do?

A. Wrap charger in wet cloth B. Keep unused chargers running needlessly C. Disconnect the charger when safe

9. What should pupils do before using an electrical appliance?

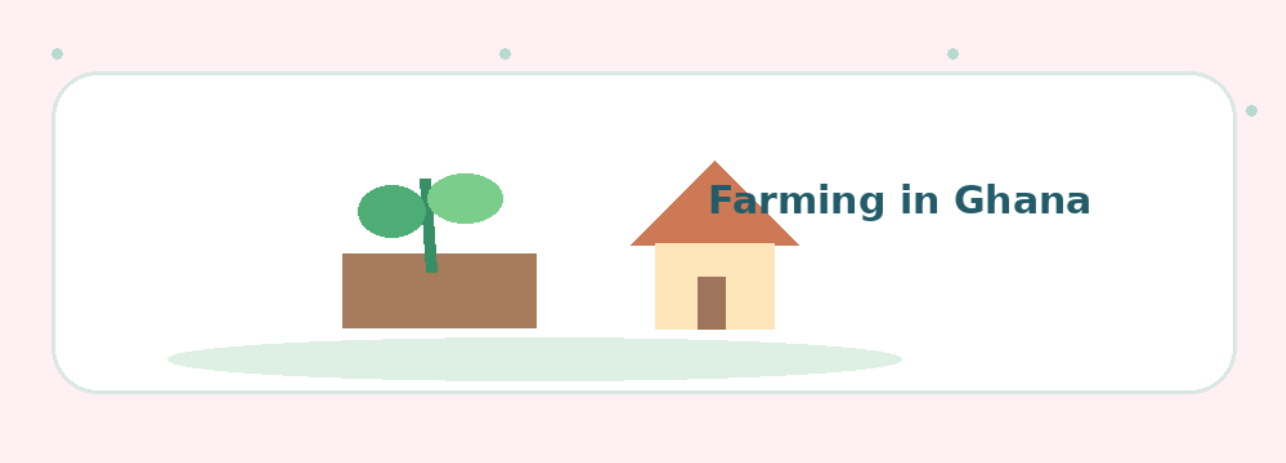

A. Repair it secretly B. Follow adult safety guidance C. Experiment with open sockets

10. How can neighbours save energy together?

A. Share reminders and good habits B. Ignore waste C. Switch on street lamps at noon for fun

LESSON 19 | Why Farming Matters in Ghana

Our Nation Ghana • Farming in Ghana

I can...

Explain the importance of farming in Ghanaian communities.

Let’s learn

Farming provides food, jobs and income in many communities. Crop farmers grow maize, yam, vegetables and cocoa. Animal farmers raise chickens, goats or other animals. Farmers help markets and households get important supplies.

Little story

The class visits a school garden and meets a gardener. They notice that planting, watering, weeding and harvesting are different parts of farming.

Try it together

Interview an adult about one kind of farming in the community. Find out what it produces and who uses the product.

Draw and discover

Draw a small crop farm and a poultry farm side by side.

PLAY — 5 questions

1. What is a main benefit of farming?

A. Food production B. Making clouds C. Stopping all trade

2. Who grows crops for people to use?

A. Car mechanic only B. Traffic officer only C. Crop farmer

3. Which is a farming activity?

A. Charging phones B. Planting seeds C. Painting roads only

4. Which is an animal farm?

A. Poultry farm B. Bus station C. Bookshop

5. How can farming support a family?

A. Destroy every meal B. Stop people working C. Provide income

CHALLENGE — 10 new questions

1. A farmer harvests okra for a market. What can the harvest provide?

A. A classroom bell B. Food and sales C. Traffic lights

2. A family keeps chickens to sell eggs. What type of farming is this?

A. Animal farming B. Map making C. Weather watching

3. Children visit a vegetable bed. Which work might they see?

A. Printing passports B. Repairing laptops C. Watering seedlings

4. A trader buys yams from growers. Who benefits from the exchange?

A. Only tables B. Farmers and buyers C. Only road signs

5. Why might a school create a small garden?

A. To learn how crops grow B. To harm insects for fun C. To waste water

6. A cocoa farmer sells beans. What is one reason the crop is useful?

A. It replaces sunlight B. It stops plants needing soil C. It brings income

7. There is no rainfall for a while. What might farmers need?

A. More litter on crops B. Suitable water management C. To throw away all tools

8. A poultry keeper cleans pens daily. Why?

A. To care for animal health B. To increase dirt C. To avoid feeding animals

9. A market has fresh tomatoes from nearby growers. What does this show?

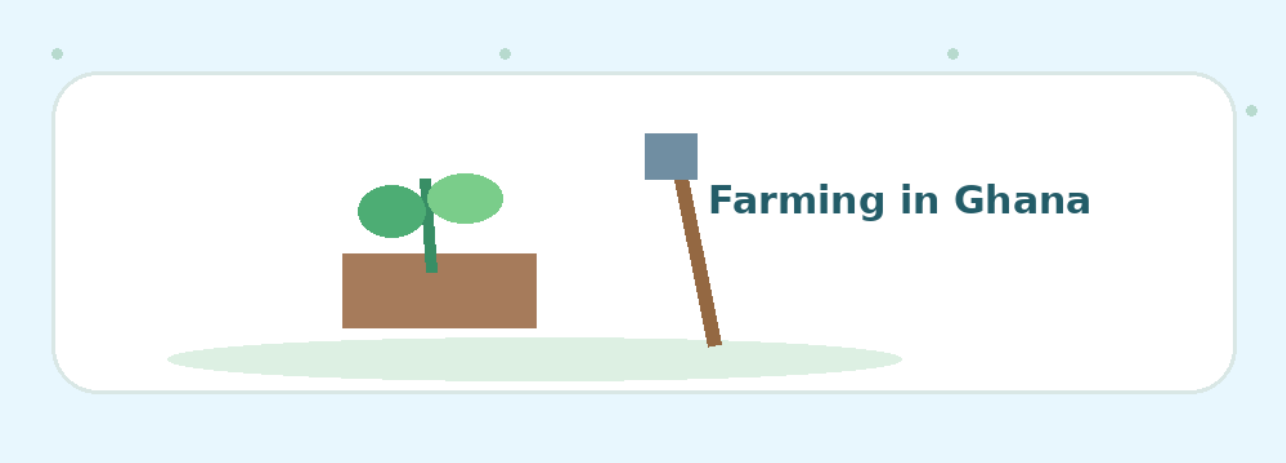

A. Markets never use farms B. Tomatoes grow from plastic C. Local farming supplies food

10. A learner thanks a farmer for vegetables. What value is shown?

A. Wastefulness B. Appreciation for work C. Disrespect

LESSON 20 | Simple Tools for Farming

Our Nation Ghana • Farming in Ghana

I can...

Identify common agricultural tools, their uses and safe care.

Let’s learn

Farmers use tools suited to different jobs. Hoes are used for loosening soil and weeding; watering cans water seedlings; cutlasses may clear vegetation; rakes gather leaves. Sharp tools are for trained adults, not children playing. Cleaning and proper storage keep tools useful.

Little story

At the school garden, the teacher displays a watering can, rake and hoe. Pupils observe from a safe distance and match each tool to its job.

Try it together

With adult guidance, match drawings of tools to tasks: water, dig, weed, gather. Explain how to store tools safely.

Draw and discover

Draw and label a watering can, a hoe and a rake.

PLAY — 5 questions

1. Which tool waters small plants?

A. Rake B. Watering can C. Cutlass

2. Which tool can loosen soil?

A. Hoe B. Radio C. Telephone

3. Which tool gathers fallen leaves?

A. Flag B. Computer mouse C. Rake

4. How should metal tools be stored?

A. Under water B. Clean and safely put away C. In a walkway

5. Who should handle a sharp cutlass?

A. A responsible trained adult B. A baby C. An unsupervised child

CHALLENGE — 10 new questions

1. Seedlings are dry in the school garden. Which tool helps?

A. Hammer for walls B. Traffic cone C. Watering can

2. A farmer wants to clear weeds with a hoe. What job is being done?

A. Reading B. Weeding C. Singing

3. After farming, a tool is muddy. What helps care for it?

A. Clean it safely B. Throw it on the road C. Leave it in rain

4. Children see a blade on the ground. What should they do?

A. Swing it around B. Pick it up to play C. Tell an adult and avoid touching

5. A worker keeps a rake upright across a doorway. What is the danger?

A. The rain will stop B. Someone may trip C. Leaves will turn gold

6. A gardener needs to dig a little soil. What should be selected by an adult?

A. An appropriate digging tool B. A flag C. A notebook

7. Why is each tool used for its proper job?

A. To make tools useless B. To break soil containers C. For safe, effective work

8. What protects a metal tool from rust?

A. Leaving it wet all season B. Dry storage and suitable maintenance C. Burying it in rubbish

9. A class sketches a farm tool. Which detail helps identify it?

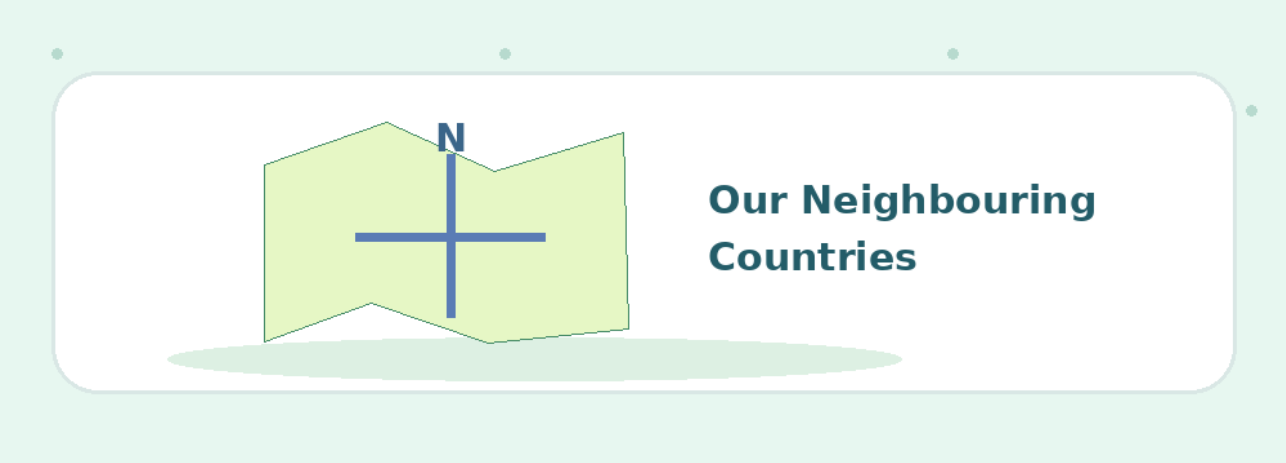

A. Its shape and handle B. A random weather chart C. The price of a book

10. The garden work is finished. What should the group do?

A. Hide tools among crops B. Leave them on paths C. Return tools to their safe places

LESSON 21 | Ghana and Her Neighbours

My Global Community • Our Neighbouring Countries

I can...

Name Ghana’s land neighbours and show their directions on a map.

Let’s learn

Ghana shares land borders with Côte d’Ivoire to the west, Burkina Faso to the north and Togo to the east. The Gulf of Guinea lies to Ghana’s south. Maps and cardinal directions help us locate places and learn about neighbouring countries.

Little story

On a simple West Africa map, a teacher points to Ghana. Pupils place paper arrows marked north, west and east beside neighbouring countries.

Try it together

Use a printed map to locate Ghana and trace each land border. Say a short rhyme: West, north, east - neighbours we greet!

Draw and discover

Draw a labelled compass rose around a Ghana outline.

PLAY — 5 questions

1. Which country lies to Ghana’s east?

A. Spain B. Egypt C. Togo

2. Which country lies to Ghana’s west?

A. Kenya B. Côte d’Ivoire C. Benin

3. Which country lies to Ghana’s north?

A. Burkina Faso B. South Africa C. Liberia

4. Which direction is opposite east?

A. South B. North C. West

5. What lies to Ghana’s south?

A. Lake Victoria B. Gulf of Guinea C. Sahara Desert

CHALLENGE — 10 new questions

1. A map arrow points from Ghana toward Togo. Which way is it pointing?

A. East B. North C. West

2. A traveller moves from Ghana into Côte d’Ivoire. Which border is crossed?

A. Eastern border B. Northern border C. Western border

3. On a map, which country is directly above Ghana?

A. Togo B. Burkina Faso C. Côte d’Ivoire

4. Which tool is most useful for locating neighbouring countries?

A. A labelled West Africa map B. A dinner plate C. A shoe

5. A compass rose has N at its top. What does N mean?

A. Number B. Near C. North

6. Which countries should a pupil colour along Ghana’s land borders?

A. France, Spain and Italy B. Togo, Côte d’Ivoire and Burkina Faso C. Nigeria, Egypt and Kenya

7. A pupil calls the sea south of Ghana a land neighbour. What is the correction?

A. It is a body of water B. It is Togo C. It is Burkina Faso

8. A bus travels east from Ghana across a land border. Where could it enter?

A. Côte d’Ivoire B. Burkina Faso C. Togo

9. Someone finds a map upside down. What should they check?

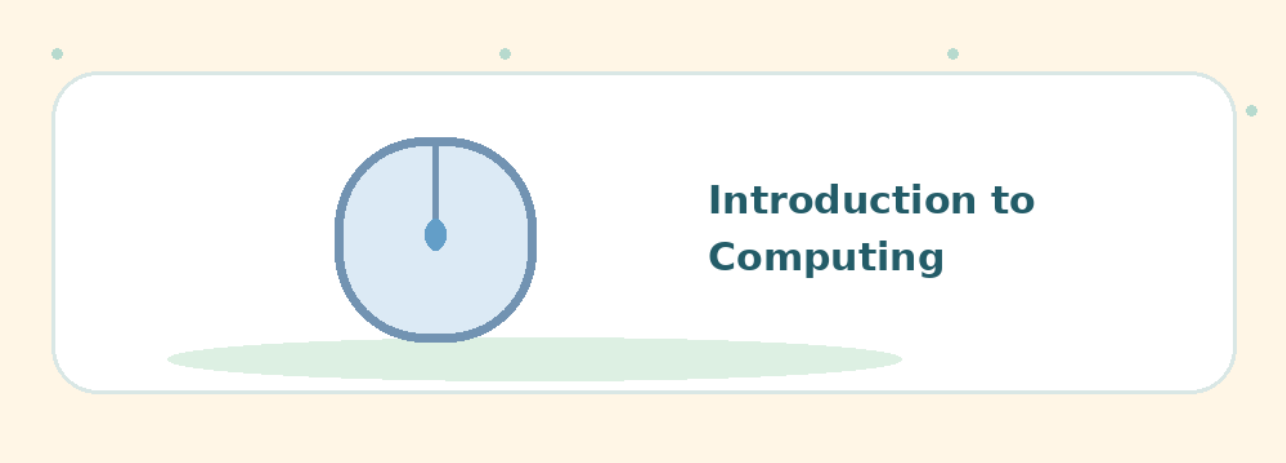

A. Only the paper colour B. Direction labels C. Number of pencil marks

10. Why learn where Ghana’s neighbours are?

A. To understand location and relations B. To stop making maps C. To claim Ghana is an island

LESSON 22 | Meet the Computer Mouse

My Global Community • Introduction to Computing

I can...

Identify left and right mouse buttons and practise single and double clicking.

Let’s learn

A computer mouse helps us point at and select items on a screen. Most mice have left and right buttons. A single click presses a button once; a double-click presses it twice quickly. Use classroom computers with teacher guidance.

Little story

Abdul moves the mouse pointer to a folder picture. His teacher shows him how a single click selects it and a double-click may open it.

Try it together

Using a supervised computer, practise pointing at three icons, single-clicking to select and double-clicking to open a practice item.

Draw and discover

Draw a mouse and mark its left and right buttons.

PLAY — 5 questions

1. What device moves a pointer on screen?

A. Computer mouse B. Water bottle C. Ruler

2. How many presses make a single click?

A. Four B. Six C. One

3. How many quick presses make a double-click?

A. Five B. Two C. Seven

4. Which mouse button is commonly used to select an item?

A. Left button B. Power cable C. Screen edge

5. What should pupils do when using a school computer?

A. Spill water on it B. Pull cables C. Follow teacher guidance

CHALLENGE — 10 new questions

1. Kojo clicks once on a picture icon. What has he done?

A. Turned off the computer B. Single-clicked C. Double-clicked

2. The teacher asks Abena to click twice quickly. What action is this?

A. Double-click B. Scrolling a book C. Typing a word

3. A pupil wants to move the on-screen arrow. What should they move?

A. The monitor with force B. The keyboard off the desk C. The mouse

4. A right-click opens a small menu on many computers. Which button is used?

A. The speaker B. Right mouse button C. The spacebar only

5. A classmate holds the mouse too tightly. What advice is useful?

A. Hold it comfortably and gently B. Bang it on the table C. Pull its cable

6. The pointer is not over the target icon. What should a pupil do first?

A. Press random keys B. Close their eyes C. Move pointer onto the icon

7. A school mouse is dusty. What is the safe action?

A. Scrape it with a blade B. Ask how to clean it properly C. Pour water into buttons

8. Which activity helps improve mouse control?

A. A supervised clicking practice game B. Pulling monitor wires C. Throwing the mouse

9. A pupil accidentally opens a menu. What should they do?

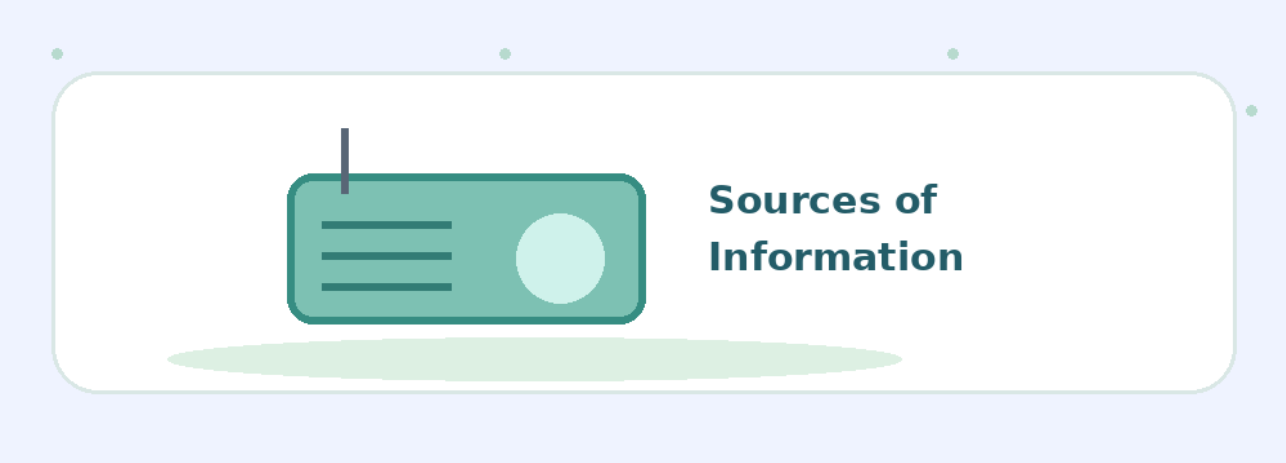

A. Hit the screen B. Give up forever C. Ask the teacher and try calmly

10. Why is it helpful to learn both mouse buttons?

A. They are decorative only B. They perform different actions C. They control the weather

LESSON 23 | Where We Get Information

My Global Community • Sources of Information

I can...

Identify common sources from which people obtain information.

Let’s learn

Information can come from people, books, radios, telephones, newspapers, signs and other helpful sources. We listen, read, observe and ask questions. Since not every message is correct, children should check confusing claims with a trusted adult.

Little story

The class learns about the next school meeting from a noticeboard. Later, the teacher confirms the time, and learners share the correct information with families.

Try it together

Find three sources of information around your home or school. Explain what each can tell you, and whom to ask if a message seems doubtful.

Draw and discover

Draw a radio, a noticeboard and a mobile phone.

PLAY — 5 questions

1. Which device can broadcast news by sound?

A. Cup B. Radio C. Hoe

2. Which printed source has reports and articles?

A. Newspaper B. Chair C. Watering can

3. Which device can receive calls or messages?

A. Plant stem B. Spoon C. Mobile phone

4. Where may a school put written notices?

A. Water tank bottom B. Noticeboard C. Locked toolbox only

5. What should you do with a confusing message?

A. Check with a trusted adult B. Share it as fact immediately C. Invent extra details

CHALLENGE — 10 new questions

1. A pupil reads a library book about plants. What is the source?

A. Farm rake B. Television remote C. Book

2. A teacher announces tomorrow’s assembly. Which source is used?

A. A painted stone B. A person speaking C. A broken shoe

3. A road sign says STOP. What kind of source is it?

A. Visual sign B. Weather instrument C. Food crop

4. A radio tells listeners about rainfall. How do people receive the message?

A. By tasting B. By carrying bricks C. By listening

5. A class sees two different times for a trip. What should they do?

A. Guess randomly B. Confirm with the teacher C. Ignore the issue

6. An elder tells a story of the town. What type of source is this?

A. Oral information B. An electrical cable C. A seedbed

7. Which source might show pictures of a national festival?

A. A garden spade B. A blank stone C. Television or newspaper

8. A child receives an alarming unknown text. What is safest?

A. Reply with private details B. Show a trusted adult C. Forward it to everyone

9. The school posts a new timetable by the door. What should pupils do?

A. Read the official notice B. Tear it down C. Rely only on gossip

10. Why compare information from two reliable sources?

A. To multiply rumours B. To avoid learning C. To improve accuracy

LESSON 24 | Sending and Receiving Messages

My Global Community • Technology in Communication

I can...

Demonstrate safe ways of sending and receiving information.

Let’s learn

People share messages through talking, phone calls, SMS, posters, radio announcements and newspapers. A sender prepares information and a receiver gets it. Messages should be clear, useful and respectful. Children should not share private details with strangers.

Little story

A school club makes a poster announcing a reading day. Parents receive the news through a school notice, and an adult sends a reminder message.

Try it together

Role-play a sender and receiver. Pass a short, safe message such as the time of a school event, then check whether it was understood.

Draw and discover

Draw arrows between a sender, a message and a receiver.

PLAY — 5 questions

1. Who creates and shares a message?

A. Pencil sharpener B. Receiver only C. Sender

2. Who gets the message?

A. School gate B. Receiver C. Only the wall

3. Which can send a written message quickly?

A. SMS B. Bucket C. Hoe

4. What makes a message easier to understand?

A. Mixed-up rumours B. Missing important details C. Clear words

5. Which is a safe communication rule?

A. Share passwords with strangers B. Keep private details protected C. Post every address publicly

CHALLENGE — 10 new questions

1. Ama tells her teacher she needs a new pencil. Who is the receiver?

A. The teacher B. The pencil C. The classroom floor

2. A school poster announces a sports day. How is the message shared?

A. Through a plant root B. Through rainfall C. Through a written display

3. Kweku listens to a radio announcement. Is he sending or receiving?

A. Planting seeds B. Receiving C. Drawing a map

4. An adult phones a family about a meeting. What is the channel?

A. Telephone call B. Watering can C. Garden rake

5. A pupil writes “Assembly starts at 8 AM.” What makes the note useful?

A. No words at all B. A false location C. A clear time

6. Someone online asks a child for a secret password. What should the child do?

A. Send it immediately B. Refuse and tell a trusted adult C. Publish it on a poster

7. Two friends cannot hear a spoken message. What can the speaker do?

A. Repeat clearly and politely B. Whisper even less C. Walk away angrily

8. A class keeps a register of club attendance. What is this?

A. An animal feed B. A farming tool C. Recorded information

9. Which information is suitable for a classroom poster?

A. A neighbour’s private medical details B. A school reading-day notice C. A classmate’s secret code

10. How can a receiver check a message?

A. Ask the sender to clarify B. Ignore every question C. Invent the missing words

Teacher / Family Answer Key

Each row lists the five Play answers, followed by the ten different Challenge answers.

01. Gifts That Sustain Life

Play: 1A, 2C, 3B, 4A, 5C | Challenge: 1B, 2A, 3C, 4B, 5A, 6C, 7B, 8A, 9C, 10B

02. I Am Unique and Valuable

Play: 1B, 2A, 3C, 4B, 5A | Challenge: 1C, 2B, 3A, 4C, 5B, 6A, 7C, 8B, 9A, 10C

03. We Help in Our Families

Play: 1C, 2B, 3A, 4C, 5B | Challenge: 1A, 2C, 3B, 4A, 5C, 6B, 7A, 8C, 9B, 10A

04. Rules Keep Us Safe

Play: 1A, 2C, 3B, 4A, 5C | Challenge: 1B, 2A, 3C, 4B, 5A, 6C, 7B, 8A, 9C, 10B

05. A Clean and Safe Environment

Play: 1B, 2A, 3C, 4B, 5A | Challenge: 1C, 2B, 3A, 4C, 5B, 6A, 7C, 8B, 9A, 10C

06. Let Us Watch the Weather

Play: 1C, 2B, 3A, 4C, 5B | Challenge: 1A, 2C, 3B, 4A, 5C, 6B, 7A, 8C, 9B, 10A

07. Important Crops Around Us

Play: 1A, 2C, 3B, 4A, 5C | Challenge: 1B, 2A, 3C, 4B, 5A, 6C, 7B, 8A, 9C, 10B

08. Animals in Our Community

Play: 1B, 2A, 3C, 4B, 5A | Challenge: 1C, 2B, 3A, 4C, 5B, 6A, 7C, 8B, 9A, 10C

09. My Classroom from Above

Play: 1C, 2B, 3A, 4C, 5B | Challenge: 1A, 2C, 3B, 4A, 5C, 6B, 7A, 8C, 9B, 10A

10. When Numbers of People Change

Play: 1A, 2C, 3B, 4A, 5C | Challenge: 1B, 2A, 3C, 4B, 5A, 6C, 7B, 8A, 9C, 10B

11. Respecting Ways of Worship

Play: 1B, 2A, 3C, 4B, 5A | Challenge: 1C, 2B, 3A, 4C, 5B, 6A, 7C, 8B, 9A, 10C

12. Festivals Bring People Together

Play: 1C, 2B, 3A, 4C, 5B | Challenge: 1A, 2C, 3B, 4A, 5C, 6B, 7A, 8C, 9B, 10A

13. How Families Show Commitment

Play: 1A, 2C, 3B, 4A, 5C | Challenge: 1B, 2A, 3C, 4B, 5A, 6C, 7B, 8A, 9C, 10B

14. My Rights and Your Rights

Play: 1B, 2A, 3C, 4B, 5A | Challenge: 1C, 2B, 3A, 4C, 5B, 6A, 7C, 8B, 9A, 10C

15. Learning from Religious Leaders

Play: 1C, 2B, 3A, 4C, 5B | Challenge: 1A, 2C, 3B, 4A, 5C, 6B, 7A, 8C, 9B, 10A

16. Values That Build Our Community

Play: 1A, 2C, 3B, 4A, 5C | Challenge: 1B, 2A, 3C, 4B, 5A, 6C, 7B, 8A, 9C, 10B

17. I Respect Ghana’s Symbols

Play: 1B, 2A, 3C, 4B, 5A | Challenge: 1C, 2B, 3A, 4C, 5B, 6A, 7C, 8B, 9A, 10C

18. Save Energy Every Day

Play: 1C, 2B, 3A, 4C, 5B | Challenge: 1A, 2C, 3B, 4A, 5C, 6B, 7A, 8C, 9B, 10A

19. Why Farming Matters in Ghana

Play: 1A, 2C, 3B, 4A, 5C | Challenge: 1B, 2A, 3C, 4B, 5A, 6C, 7B, 8A, 9C, 10B

20. Simple Tools for Farming

Play: 1B, 2A, 3C, 4B, 5A | Challenge: 1C, 2B, 3A, 4C, 5B, 6A, 7C, 8B, 9A, 10C

21. Ghana and Her Neighbours

Play: 1C, 2B, 3A, 4C, 5B | Challenge: 1A, 2C, 3B, 4A, 5C, 6B, 7A, 8C, 9B, 10A

22. Meet the Computer Mouse

Play: 1A, 2C, 3B, 4A, 5C | Challenge: 1B, 2A, 3C, 4B, 5A, 6C, 7B, 8A, 9C, 10B

23. Where We Get Information

Play: 1B, 2A, 3C, 4B, 5A | Challenge: 1C, 2B, 3A, 4C, 5B, 6A, 7C, 8B, 9A, 10C

24. Sending and Receiving Messages

Play: 1C, 2B, 3A, 4C, 5B | Challenge: 1A, 2C, 3B, 4A, 5C, 6B, 7A, 8C, 9B, 10A
