Our World and Our People

BASIC 3 - COMPLETE LEARNING WORKBOOK

27 curriculum-aligned lessons | 135 Play questions | 270 Challenge questions

Independent learning adaptation based on the NaCCA 2019 Basic 3 curriculum. Not an official NaCCA publication.

Includes respectful discussion of Ghanaian faith traditions, classroom activities, sketches and answer keys. Some explanations and examples are newly written.

Welcome, learner!

Read each mini-lesson, look at the illustration, retell the story, and do the guided activity. Play contains five multiple-choice questions. Challenge contains ten different questions with practical situations. Answer keys are at the back.

Lesson guide

01. Caring for Creation - All About Us

02. Promises and the Call to Serve - All About Us

03. Values of Answering the Call - All About Us

04. Healthy Habits, Safe Choices - All About Us

05. Building Good Relationships - All About Us

06. Mapping My Neighbourhood - All About Us

07. Land and Water in Danger - All Around Us

08. Protecting Our Land and Water - All Around Us

09. Make and Care for a Garden - All Around Us

10. Sketch Our Classroom - All Around Us

11. Why We Keep Records - All Around Us

12. Landmarks in Our School - All Around Us

13. Proud of My Community - All Around Us

14. Learning from Sacred Writings - Our Beliefs and Values

15. Festivals We Celebrate - Our Beliefs and Values

16. Knowing and Claiming Our Rights - Our Beliefs and Values

17. The Early Lives of Religious Leaders - Our Beliefs and Values

18. Moral Lessons from Leaders - Our Beliefs and Values

19. Good Manners in Our Community - Our Nation Ghana

20. Keeping Law and Order - Our Nation Ghana

21. Honouring Ghana's National Symbols - Our Nation Ghana

22. Wise Use of Energy - Our Nation Ghana

23. Made and Grown in Ghana - Our Nation Ghana

24. Ghana and Its Neighbours - My Global Community

25. Discover the Computer - My Global Community

26. Sharing Information - My Global Community

27. Technology Helps Us Communicate - My Global Community

Caring for Creation

Today's goal: Explain purposes of human creation and ways to protect living things.

Let's learn

In the faith stories studied, human beings are called to care for other creatures, worship and serve God. Plants provide food and medicines; animals may provide food or help people. Clean air, water and healthy soil support life. We show responsibility by planting trees and disposing of rubbish properly.

Story time

After seeing rubbish near a young tree, Sena and her friends picked it up safely with their teacher and watered the tree. They said caring for the environment also helps people.

Try it together

With your teacher, list three living things around the school and a safe way to protect each.

Draw and share

Draw a healthy tree, two animals and people caring for their surroundings.

LESSON 01 | Check your learning

PLAY - 5 quick questions

1. What provides food and sometimes medicine?
A. Plants B. Plastic bags C. Broken glass
2. What do people need for breathing?
A. Smoke B. Clean air C. Dirty water
3. What action protects the environment?
A. Throwing litter B. Burning rubbish C. Planting trees
4. What helps plants grow?
A. Water and soil B. Petrol C. Nails
5. What is one purpose of caring for creation?
A. Polluting rivers B. Protecting life C. Wasting resources

CHALLENGE - 10 new questions

1. A pupil throws wrappers beside a tree. Which action should the group suggest?
A. Throwing litter B. Planting trees C. Burning rubbish
2. A gardener wants something that may give food or medicine. What should she grow?
A. Broken glass B. Plastic bags C. Plants
3. Your class discusses what supports every breath. What will you mention?
A. Clean air B. Dirty water C. Smoke
4. An empty school yard needs shade for the future. What should children do with adults?
A. Planting trees B. Burning rubbish C. Throwing litter
5. A seedling dries out in a garden. What does it need?
A. Petrol B. Nails C. Water and soil
6. The class plans an Earth-care project. Which goal is most suitable?
A. Protecting life B. Polluting rivers C. Wasting resources
7. Fish die after a stream is polluted. What important goal was neglected?
A. Polluting rivers B. Wasting resources C. Protecting life
8. A farmer prepares a bed for young vegetables. Which pair supports growth?
A. Petrol B. Nails C. Water and soil
9. A class chooses a project to improve the school environment. Which action helps?
A. Planting trees B. Throwing litter C. Burning rubbish
10. You explain why people must keep their surroundings healthy. What does this promote?
A. Polluting rivers B. Wasting resources C. Protecting life

Promises and the Call to Serve

Today's goal: Describe examples of God's promises and ways believers respond to a call.

Let's learn

The curriculum uses stories of Abraham (Ibrahim) and Moses (Musa) when discussing God's promises and call. Believers learn about trust, obedience, humility and service from these stories. Responses may include prayer, helping people in need and caring for the environment. People of different faiths may explain these promises in different ways.

Story time

At home, Mariam asks what it means to answer a call to do good. Her grandmother says that kindness and service can be part of a faithful response.

Try it together

Retell one story of Abraham/Ibrahim or Moses/Musa respectfully using a trusted text or a teacher's summary.

Draw and share

Illustrate a person helping a neighbour and a tree being watered.

LESSON 02 | Check your learning

PLAY - 5 quick questions

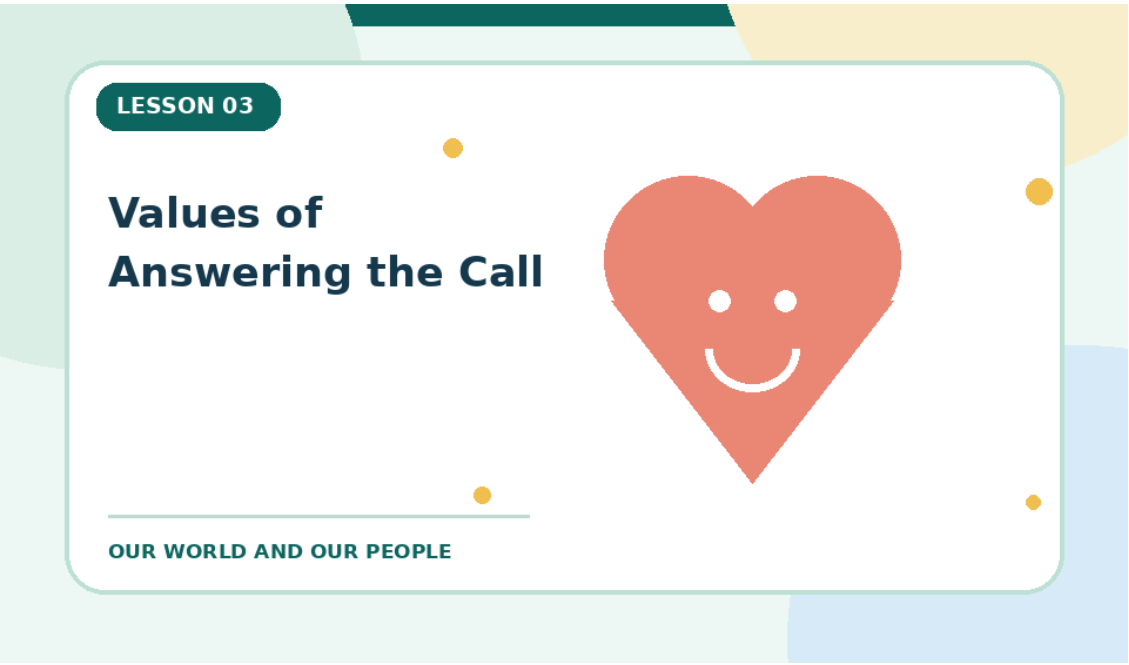

1. Which two leaders appear in the curriculum examples?
A. Abraham and Moses B. Einstein and Newton C. Caesar and Napoleon
2. Which value means keeping faith with a responsibility?
A. Mockery B. Carelessness C. Commitment
3. What is an example of service to people?
A. Destroying gardens B. Ignoring neighbours C. Helping the needy
4. Which response involves talking to God in faith?
A. Littering B. Fighting C. Prayer
5. How should learners discuss different faith accounts?
A. With threats B. With insults C. Respectfully

CHALLENGE - 10 new questions

1. A story names Ibrahim and Musa. Which pair of names is also used for them?
A. Caesar and Napoleon B. Abraham and Moses C. Einstein and Newton
2. You promise to care for a class plant daily. Which value do you show?
A. Carelessness B. Mockery C. Commitment
3. A nearby family needs food after a flood. Which response illustrates service?
A. Destroying gardens B. Helping the needy C. Ignoring neighbours
4. During worship, a learner wants to express faith through words. Which activity fits?
A. Littering B. Prayer C. Fighting
5. Two friends retell the same faith story differently. How should they speak?
A. With insults B. Respectfully C. With threats
6. The class researches leaders used as examples of God's call. Who are they?
A. Caesar and Napoleon B. Einstein and Newton C. Abraham and Moses
7. A child chooses to keep helping even when it is difficult. What does that show?
A. Carelessness B. Mockery C. Commitment
8. Your class makes a plan to support people in need. Which action belongs?
A. Destroying gardens B. Ignoring neighbours C. Helping the needy
9. A family talks about ways to answer a religious call. What is a common practice?
A. Prayer B. Fighting C. Littering
10. Someone laughs at another family's belief. What conduct should replace this?
A. With threats B. Respectfully C. With insults

Values of Answering the Call

Today's goal: Identify moral lessons and faith-based benefits described when people answer God's call.

Let's learn

The curriculum presents believers' views of benefits such as drawing closer to God and hopes for long life, prosperity or eternal life. These are faith teachings, not guaranteed outcomes that everyone experiences. Shared moral lessons include obedience, sacrifice, respect, commitment and humility. Learners can demonstrate these values in everyday kindness.

Story time

Kojo volunteers to tidy the reading corner even though he would rather play. He thinks about commitment and helping without seeking praise.

Try it together

In pairs, role-play showing humility, respect or sacrifice in an everyday situation.

Draw and share

Draw two classmates sharing materials and write one value beside them.

LESSON 03 | Check your learning

PLAY - 5 quick questions

1. Which lesson means not boasting over others?
A. Humility B. Prideful teasing C. Greed
2. Which value means showing consideration for people?
A. Bullying B. Respect C. Rudeness
3. What does giving up time to help show?
A. Sacrifice B. Dishonesty C. Selfishness
4. What does remaining faithful to a good duty show?
A. Neglect B. Commitment C. Laziness
5. How are prosperity and eternal life presented here?
A. Faith-based hopes B. Scientific measurements C. Guaranteed school prizes

CHALLENGE - 10 new questions

1. Adjoa lets another pupil speak without interrupting. What quality does she show?
A. Rudeness B. Respect C. Bullying
2. A prefect accepts feedback without boasting. What quality is this?
A. Prideful teasing B. Greed C. Humility
3. A child helps collect chairs instead of rushing home to play. Which value fits?
A. Selfishness B. Dishonesty C. Sacrifice
4. A gardener waters seedlings each morning for weeks. Which value fits?
A. Neglect B. Laziness C. Commitment
5. The lesson mentions hopes of eternal life. How should they be described?
A. Scientific measurements B. Faith-based hopes C. Guaranteed school prizes
6. A winner thanks teammates and does not brag. What character trait is shown?
A. Greed B. Prideful teasing C. Humility
7. A pupil listens to an elder's advice politely. Which value is practised?
A. Respect B. Bullying C. Rudeness
8. Someone uses Saturday morning to support a clean-up. Which moral lesson fits?
A. Selfishness B. Dishonesty C. Sacrifice
9. A reading buddy turns up every agreed day. Which quality has been kept?
A. Laziness B. Neglect C. Commitment
10. Can every person be promised wealth because they help someone? Choose the careful answer.
A. Guaranteed school prizes B. Faith-based hopes C. Scientific measurements

Healthy Habits, Safe Choices

Today's goal: Explain ways to promote personal hygiene and safety.

Let's learn

Personal hygiene helps us stay clean and comfortable. The curriculum lists soap, water, toothpaste, toothbrushes and nail cutters. Wash hands with soap, brush teeth morning and night, bathe regularly, and keep clothing clean. Sharp tools are handled by an adult or under adult guidance.

Story time

Before eating lunch, Esi notices paint on her fingers. She washes with soap and clean water rather than wiping her hands on her skirt.

Try it together

Demonstrate handwashing with an adult and write four steps.

Draw and share

Draw a labelled hygiene kit with soap, toothbrush, toothpaste and towel.

LESSON 04 | Check your learning

PLAY - 5 quick questions

1. What helps clean hands properly?

A. Soap and clean water B. Sand and oil C. Ink and glue

2. How often should teeth usually be brushed?

A. At least twice a day B. Once a month C. Only on birthdays

3. Which item cleans teeth?

A. A shoe B. A ruler C. A toothbrush

4. Who should supervise use of sharp nail-cutting tools?

A. A baby B. Nobody C. An adult

5. Why keep clothes washed?

A. To collect germs B. To spread dirt C. To maintain cleanliness

CHALLENGE - 10 new questions

1. Yaw returns from playing outside and is about to eat. What should he use first?

A. Sand and oil B. Soap and clean water C. Ink and glue

2. A pupil asks for a healthy daily routine for teeth. What is the right frequency?

A. Once a month B. Only on birthdays C. At least twice a day

3. A girl has toothpaste but no tool for cleaning teeth. What else does she need?

A. A ruler B. A shoe C. A toothbrush

4. A child wants to trim nails with sharp cutters. Who should assist?

A. A baby B. An adult C. Nobody

5. School uniforms are dirty after sports. What is a reason to wash them?

A. To collect germs B. To maintain cleanliness C. To spread dirt

6. The class finds mud on its fingers before snack time. Which supplies should be ready?

A. Sand and oil B. Ink and glue C. Soap and clean water

7. Ama brushes only once a week. Which change would improve her routine?

A. Only on birthdays B. Once a month C. At least twice a day

8. A pupil chooses a shoe to brush teeth. Which item is made for the job?

A. A shoe B. A ruler C. A toothbrush

9. A young child reaches for sharp clippers. What is the safest next step?

A. Nobody B. An adult C. A baby

10. Your class plans a clean-uniform day. What is its aim?

A. To maintain cleanliness B. To collect germs C. To spread dirt

Building Good Relationships

Today's goal: Explain behaviours that build good relationships at home, school and in the community.

Let's learn

Good relationships grow through respect, love, honesty, friendliness, humility and helpful behaviour. Listening and speaking kindly can prevent conflict. When disagreements happen, we can discuss them without insults. A peaceful community is a place where people cooperate and care for one another.

Story time

When two classmates want the same storybook, they take turns and thank each other. Their peaceful solution keeps the friendship strong.

Try it together

Role-play a disagreement about borrowing an item and show a respectful solution.

Draw and share

Draw a family or group of classmates helping one another.

LESSON 05 | Check your learning

PLAY - 5 quick questions

1. What builds trust between friends?

A. Honesty B. Stealing C. Lying

2. How should we speak in a disagreement?

A. By shouting threats B. With insults C. Politely

3. What promotes unity in a class?

A. Exclusion B. Bullying C. Cooperation

4. Which behaviour shows friendliness?

A. Mocking mistakes B. Ignoring everyone C. Greeting others kindly

5. What happens when people work peacefully?

A. Trust disappears B. Everyone becomes enemies C. Relationships improve

CHALLENGE - 10 new questions

1. A friend asks who broke a pencil. Which value helps you answer truthfully?

A. Stealing B. Lying C. Honesty

2. Two children want to use one football. How should they talk about turns?

A. Politely B. By shouting threats C. With insults

3. The class is setting up a reading fair. Which habit helps everyone?

A. Cooperation B. Bullying C. Exclusion

4. A new learner arrives. Which action helps the child feel welcome?

A. Greeting others kindly B. Ignoring everyone C. Mocking mistakes

5. Neighbours help repair a public bench together. What is one benefit?

A. Trust disappears B. Everyone becomes enemies C. Relationships improve

6. You find money near a desk and return it. What value did you practise?

A. Lying B. Stealing C. Honesty

7. One pupil interrupts another angrily. What speaking style would improve things?

A. Politely B. By shouting threats C. With insults

8. During a team game, no one shares responsibilities. What would help?

A. Exclusion B. Bullying C. Cooperation

9. You meet a shy classmate at the gate. What is a kind way to respond?

A. Ignoring everyone B. Greeting others kindly C. Mocking mistakes

10. Two families settle an argument respectfully. What is likely to improve?

A. Trust disappears B. Relationships improve C. Everyone becomes enemies

Mapping My Neighbourhood

Today's goal: Sketch a neighbourhood map with home, important places and main routes.

Let's learn

A neighbourhood map is a simple drawing that shows where places are found. Put familiar landmarks such as the market, school, clinic or police station on it. Use lines for roads and a key to explain symbols. Simple directions such as left, right, near and opposite make a sketch easier to use.

Story time

Abena sketches a route from school to the market. She adds the clinic and footbridge so her teacher can follow the route.

Try it together

With an adult, observe safe familiar routes and draw a sketch that does not show anyone's private details.

Draw and share

Draw a simple map with a school, home, road, market and a key.

LESSON 06 | Check your learning

PLAY - 5 quick questions

1. What do lines often show on a simple map?

A. Songs B. Roads C. Smells

2. What helps explain symbols on a map?

A. A drum B. A key C. A cup

3. Which place is a community landmark?

A. A whisper B. A market C. A cloud

4. Which word helps give direction?

A. Delicious B. Shiny C. Opposite

5. What is the purpose of a neighbourhood sketch?

A. Predict rainfall exactly B. Show where places are C. Cook food

CHALLENGE - 10 new questions

1. Sena uses two long lines between buildings. What are these likely to represent?

A. Roads B. Smells C. Songs

2. A circle means a clinic on your sketch. What explains that circle?

A. A cup B. A key C. A drum

3. You want classmates to find the trading area. What landmark can you mark?

A. A whisper B. A cloud C. A market

4. A friend asks where the clinic is relative to school. Which direction word is useful?

A. Opposite B. Shiny C. Delicious

5. The class has to locate homes and a library. Which drawing best helps?

A. Show where places are B. Predict rainfall exactly C. Cook food

6. A route to the post office is missing from the map. What symbol can show the route?

A. Roads B. Smells C. Songs

7. Someone cannot tell what the star symbol means. What should be added?

A. A key B. A cup C. A drum

8. Your teacher asks for an important buying and selling place. What will you label?

A. A cloud B. A whisper C. A market

9. You explain that the shop faces the school across a road. Which word helps?

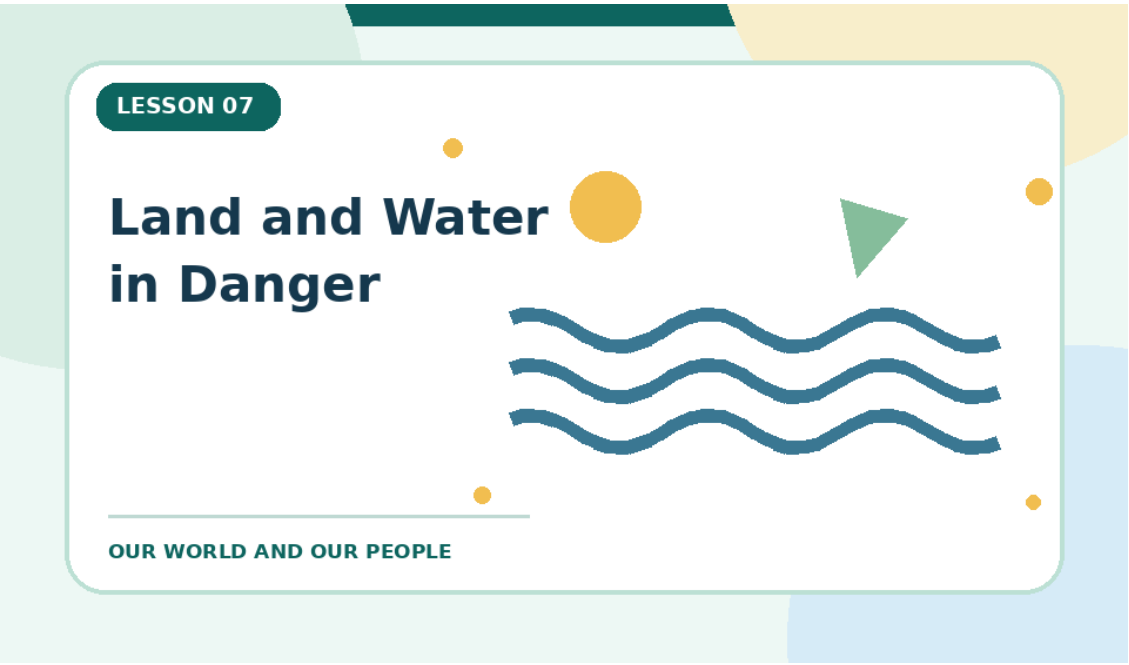

A. Shiny B. Opposite C. Delicious

10. You are planning a walk in the community. What is the map for?

A. Cook food B. Predict rainfall exactly C. Show where places are

Land and Water in Danger

Today's goal: Identify problems caused by harmful uses of land and water.

Let's learn

Land and water support life and livelihoods. Dumping rubbish can block gutters and pollute streams. Poorly managed mining, careless burning, sand winning or quarrying can damage land and water. We should observe environmental problems from a safe distance and report hazards to responsible adults.

Story time

After rainfall, Kwesi notices plastic blocking a roadside drain. He tells the teacher, who arranges safe adult help instead of letting children enter the gutter.

Try it together

Look at pictures of clean and polluted places; compare the effects on people, animals and plants.

Draw and share

Make a before-and-after picture of a clean stream and a polluted stream.

LESSON 07 | Check your learning

PLAY - 5 quick questions

1. What can block gutters?

A. Dumped rubbish B. A tidy shelf C. A clean footpath

2. What happens when waste enters a river?

A. Water becomes sweeter B. The river turns into a road C. Water becomes polluted

3. What can poorly managed mining damage?

A. Land and water B. A storybook only C. A school bell only

4. What is a hazard near a deep gutter?

A. A new flower B. Extra playground space C. Possible injury

5. Who should children tell about a dangerous polluted place?

A. No one B. A responsible adult C. A toddler

CHALLENGE - 10 new questions

1. A flooded street has a gutter full of plastic. What likely caused the blockage?

A. A clean footpath B. Dumped rubbish C. A tidy shelf

2. After waste is tipped into a stream, what is the result for the water?

A. The river turns into a road B. Water becomes sweeter C. Water becomes polluted

3. Bare ground and muddy streams appear near a poorly managed mining site. What has been harmed?

A. Land and water B. A school bell only C. A storybook only

4. A pupil wants to climb inside a deep drain. Which concern matters?

A. Extra playground space B. Possible injury C. A new flower

5. A group sees unsafe quarry equipment. To whom should they report it?

A. No one B. A responsible adult C. A toddler

6. A community clean-up begins by removing bags from drain entrances. Which problem does it reduce?

A. Dumped rubbish B. A clean footpath C. A tidy shelf

7. Fish are affected after refuse is thrown into the water. What happened to the stream?

A. Water becomes sweeter B. Water becomes polluted C. The river turns into a road

8. The class sees damaged soil after careless extraction. Which resources were harmed?

A. A storybook only B. Land and water C. A school bell only

9. A child approaches a collapsed ditch alone. What should make them stop?

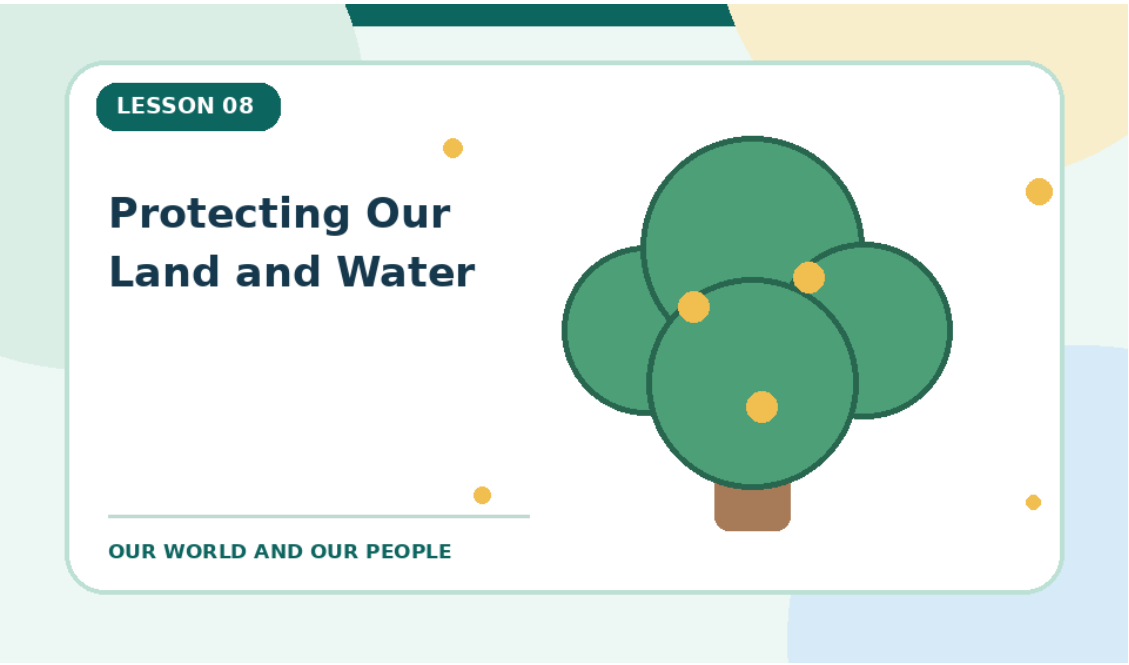

A. Extra playground space B. A new flower C. Possible injury

10. A polluted bank is unsafe for pupils to clean. What should they do?

A. A responsible adult B. No one C. A toddler

Protecting Our Land and Water

Today's goal: Suggest safe ways to protect land and water from damage.

Let's learn

We can protect land and water by using bins, planting trees, avoiding dumping in waterways, and teaching others not to pollute. Adults and authorities manage hazardous clean-up work and mining laws. Everyone can keep school surroundings tidy and conserve water. Looking after these resources protects our future.

Story time

The school environmental club paints a friendly sign: “Keep the Stream Clean.” Parents help plant grass along bare ground.

Try it together

Plan a safe school anti-litter campaign with a poster and one action adults can help perform.

Draw and share

Draw a riverbank with planted trees and a rubbish bin nearby.

LESSON 08 | Check your learning

PLAY - 5 quick questions

1. Where should everyday litter go?

A. Into a stream B. Onto a road C. In a bin

2. What helps protect bare soil?

A. Removing every tree B. Planting vegetation C. Burning bushes

3. What keeps rivers healthier?

A. Avoiding dumping waste B. Throwing plastic into drains C. Washing chemicals into water

4. How can pupils share environmental messages?

A. Hide all bins B. Make posters C. Break taps

5. Who should manage dangerous waste clean-ups?

A. Unsupervised pupils B. Small children alone C. Trained adults

CHALLENGE - 10 new questions

1. A pupil finishes a snack beside a river. Where should the wrapper be placed?

A. In a bin B. Into a stream C. Onto a road

2. An eroding school slope needs roots to hold soil. What can help?

A. Planting vegetation B. Burning bushes C. Removing every tree

3. A trader plans to throw a bag into a stream. What safer habit should replace it?

A. Throwing plastic into drains B. Washing chemicals into water C. Avoiding dumping waste

4. A green club wants to educate neighbours. Which tool could it create?

A. Make posters B. Break taps C. Hide all bins

5. There is sharp metal mixed with waste at a dumpsite. Who should handle it?

A. Trained adults B. Small children alone C. Unsupervised pupils

6. After a school picnic, what should learners use for scraps?

A. Into a stream B. Onto a road C. In a bin

7. Rain washes bare earth away. Which natural covering can reduce the problem?

A. Planting vegetation B. Burning bushes C. Removing every tree

8. Children see someone dropping refuse in a gutter. Which practice protects it?

A. Washing chemicals into water B. Avoiding dumping waste C. Throwing plastic into drains

9. The class wants a message near the tap. What communication activity helps?

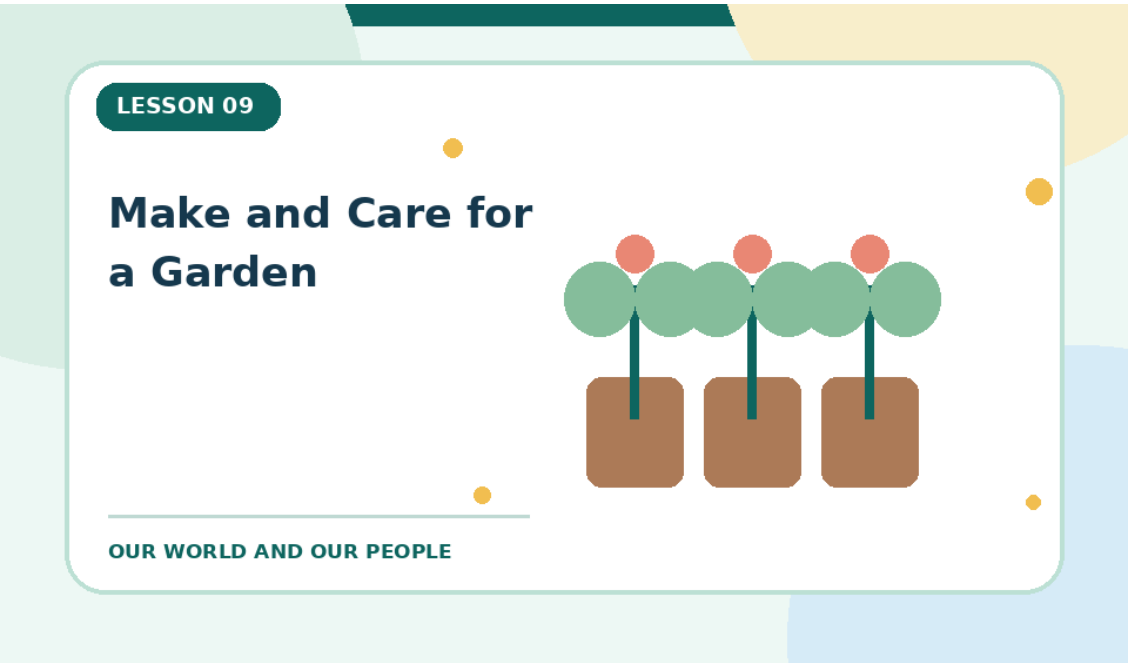

A. Break taps B. Make posters C. Hide all bins

10. A polluted drain contains broken glass. Who must arrange safe removal?

A. Trained adults B. Unsupervised pupils C. Small children alone

Make and Care for a Garden

Today's goal: Explain how to make and maintain a simple garden.

Let's learn

A garden is a place where useful or beautiful plants are grown. Choose a suitable safe site, prepare the soil with an adult and plant seeds or seedlings. Plants need appropriate water, light and care. We can remove weeds, observe growth and keep rubbish away from the garden.

Story time

In the class garden, Kofi plants okra while Maame plants flowers. Both children observe new leaves and record how they care for them.

Try it together

Plant seeds in a reused pot with a teacher; observe and record their growth for a week.

Draw and share

Draw a small garden with beds, vegetables, watering can and flowers.

LESSON 09 | Check your learning

PLAY - 5 quick questions

1. What can pupils grow in a garden?
A. Glass bottles only B. Stones only C. Vegetables and flowers
2. What may plants need regularly?
A. Petrol B. Paint C. Water
3. What competes with garden crops?
A. Rulers B. Weeds C. Chalk
4. What is the first step before planting?
A. Cover soil with plastic waste B. Choose a suitable site C. Break all tools
5. Why observe plants over time?
A. To stop sunshine B. To hide seedlings C. To notice growth

CHALLENGE - 10 new questions

1. A garden group plans crops and flowers. What do these count as?
A. Stones only B. Glass bottles only C. Vegetables and flowers
2. The soil around seedlings is dry. What should learners check first?
A. Water B. Paint C. Petrol
3. Unwanted plants surround the okra. What are they?
A. Rulers B. Weeds C. Chalk
4. Pupils have seeds but no planting space yet. What should they do first?
A. Cover soil with plastic waste B. Break all tools C. Choose a suitable site
5. Your class measures a stem each week. What is the purpose?
A. To hide seedlings B. To stop sunshine C. To notice growth
6. The school wants both beauty and food from beds. What can it grow?
A. Glass bottles only B. Vegetables and flowers C. Stones only
7. Leaves wilt in very dry soil. What do they probably lack?
A. Water B. Paint C. Petrol
8. A gardener pulls out unwanted competing plants. What did the gardener remove?
A. Rulers B. Chalk C. Weeds
9. Before sowing, a teacher checks drainage and light. Which step is this?
A. Choose a suitable site B. Cover soil with plastic waste C. Break all tools
10. Learners take dated photos of seedlings. Why do that?
A. To hide seedlings B. To notice growth C. To stop sunshine

Sketch Our Classroom

Today's goal: Sketch the classroom and locate the teacher's desk and other objects.

Let's learn

A classroom sketch shows where objects are located using simple shapes. Draw the classroom outline, then mark the teacher's table (Tt), board (Bb/Wb), cupboard (C) and your seat (Me). A label or key helps another learner read the sketch. The drawing does not need to be perfectly to scale.

Story time

Akosua draws a rectangle for her classroom, marks the board at the front and places “Me” beside her desk.

Try it together

Walk around the class with your teacher and make a labelled bird's-eye-view sketch.

Draw and share

Draw a classroom outline labelled Bb/Wb, Tt, C and Me.

LESSON 10 | Check your learning

PLAY - 5 quick questions

1. What does Tt mean on a class sketch?

A. Toilet tap B. Teacher's table C. Tall tree

2. What can Bb/Wb mean?

A. Blue water bottle B. Blackboard or whiteboard C. Basket of beans

3. Which letter labels a cupboard?

A. P B. Z C. C

4. What might Me label on a classroom plan?

A. School garden B. Your seat C. Public road

5. What shape can outline many classrooms?

A. Only a heart B. Rectangle C. Only a star

CHALLENGE - 10 new questions

1. An outline uses Tt near the front. What is marked?

A. Tall tree B. Teacher's table C. Toilet tap

2. A visitor asks what Bb/Wb means. How should you explain it?

A. Blue water bottle B. Blackboard or whiteboard C. Basket of beans

3. Your diagram has a storage unit. Which label from the source can you use?

A. Z B. C C. P

4. Kwaku wants to mark where he sits. What label should he choose?

A. School garden B. Your seat C. Public road

5. A learner sketches four walls of a rectangular room. Which shape fits?

A. Only a heart B. Only a star C. Rectangle

6. A desk used by the teacher needs a short label. Which one is correct?

A. Teacher's table B. Tall tree C. Toilet tap

7. A board at the wall is marked Bb/Wb. What object is shown?

A. Blue water bottle B. Blackboard or whiteboard C. Basket of beans

8. A teacher points to the cupboard. Which letter belongs beside it?

A. P B. Z C. C

9. You mark your own position using two letters. What are they?

A. School garden B. Public road C. Your seat

10. The classroom has four corners and opposite sides. What simple outline works?

A. Only a star B. Only a heart C. Rectangle

Why We Keep Records

Today's goal: Mention reasons for taking and keeping records regularly.

Let's learn

The curriculum places record keeping alongside classroom sketching. A record is information written down for later use. We record dates, attendance, borrowed books or plant growth to help us remember accurately and make decisions. Records should be clear, kept safely and checked when needed.

Story time

When the class library lost a book, the borrowing record helped the pupils remember who borrowed it and when.

Try it together

Create a simple four-day chart of classroom plant observations with your teacher.

Draw and share

Draw a small record table with headings “Date” and “Observation”.

LESSON 11 | Check your learning

PLAY - 5 quick questions

1. Why keep a written record?

A. For future reference B. To forget events C. To make information vanish

2. What helps a record be useful?

A. Missing dates B. Guesswork C. Accuracy

3. Which is an example of a school record?

A. Attendance list B. An empty plate C. A torn leaf

4. Where should important records be stored?

A. Under a fire B. In a drain C. Safely

5. What can date labels help us do?

A. Follow changes over time B. Hide the sequence C. Erase facts

CHALLENGE - 10 new questions

1. You want to know how tall a bean plant was last week. Why is a chart helpful?

A. To make information vanish B. To forget events C. For future reference

2. A pupil writes the wrong date in a log. What quality should be improved?

A. Accuracy B. Guesswork C. Missing dates

3. A teacher wants to check who attended on Monday. What should she read?

A. An empty plate B. A torn leaf C. Attendance list

4. A class folder contains important pages. Where should it be kept?

A. In a drain B. Safely C. Under a fire

5. You check daily rainfall notes to compare days. What do the dates show?

A. Hide the sequence B. Follow changes over time C. Erase facts

6. A librarian needs to recall who took a book. Why is the log useful?

A. For future reference B. To make information vanish C. To forget events

7. A measurement is guessed rather than read carefully. What quality is missing?

A. Guesswork B. Accuracy C. Missing dates

8. A class monitor ticks present pupils each day. What is that list called?

A. A torn leaf B. An empty plate C. Attendance list

9. Pupils leave their records where rain can soak them. Where ought they go?

A. Safely B. Under a fire C. In a drain

10. The club compares garden results from Monday to Friday. What makes the order clear?

A. Erase facts B. Hide the sequence C. Follow changes over time

Landmarks in Our School

Today's goal: Make a school-compound sketch with major landmarks.

Let's learn

Landmarks are places or objects that help us recognise locations. On a school sketch, show buildings, the gate, play area, library or water point. Walk around with an adult, notice where the places are relative to one another and label them. Use simple lines and symbols to make the map clear.

Story time

Afua helps a visitor find the school library. On her sketch, the library is next to the assembly ground and opposite the office.

Try it together

With permission, walk around the school, then label four safe, familiar landmarks.

Draw and share

Sketch your school, showing a gate, classroom block, office and playground.

LESSON 12 | Check your learning

PLAY - 5 quick questions

1. What does a landmark help us do?

A. Bake bread B. Find locations C. Count stars at night

2. Which could be a school landmark?

A. The main gate B. A passing cloud C. A song

3. What should be added beside a building symbol?

A. A secret B. A label C. A smell

4. What helps see where buildings are?

A. Walking and observing safely B. Guessing while asleep C. Hiding the map

5. What can show paths on a sketch?

A. Lines B. Feathers C. Soap

CHALLENGE - 10 new questions

1. A visitor is looking for the library. What helps them identify places?

A. Count stars at night B. Bake bread C. Find locations

2. Someone enters from the road. What school feature might be labelled first?

A. The main gate B. A song C. A passing cloud

3. Two rectangular shapes represent different blocks. What distinguishes them?

A. A smell B. A secret C. A label

4. Pupils need accurate positions before drawing. What should they do?

A. Guessing while asleep B. Hiding the map C. Walking and observing safely

5. A route joins the gate and assembly ground. What is drawn for that route?

A. Soap B. Feathers C. Lines

6. Your friend is lost near the office. Which feature on a sketch helps them navigate?

A. Count stars at night B. Bake bread C. Find locations

7. The map includes an entrance. What might that landmark be?

A. The main gate B. A passing cloud C. A song

8. A building is shown but unnamed. What should be written next to it?

A. A label B. A smell C. A secret

9. Before sketching, the class tours the compound. What skill is practised?

A. Hiding the map B. Walking and observing safely C. Guessing while asleep

10. The teacher asks how to mark a walkway. Which mark is suitable?

A. Soap B. Feathers C. Lines

Proud of My Community

Today's goal: Explain how to show pride in and care for one's community.

Let's learn

A community is a place where people live, work and help one another. We can show pride by keeping public areas clean, respecting neighbours and protecting shared facilities. Do not damage streetlights, school walls or taps. Report serious damage to a trusted adult or responsible authority.

Story time

Mensah notices a tap running after everyone has left the wash area. He closes it carefully and tells the caretaker.

Try it together

Identify three community facilities and plan one safe way to care for them.

Draw and share

Draw a tidy street with homes, a shared water tap and trees.

LESSON 13 | Check your learning

PLAY - 5 quick questions

1. How can children show community pride?

A. Drop litter B. Keep public places clean C. Write on walls

2. What should happen to a tap left running?

A. Close it safely B. Leave it wasting water C. Break the handle

3. What are public facilities for?

A. One person to destroy B. Throwing rubbish into C. Shared community use

4. What should you do about damage to a streetlight?

A. Climb the pole B. Ignore all danger C. Report it to an adult

5. What attitude builds a peaceful community?

A. Vandalism B. Respect C. Fighting

CHALLENGE - 10 new questions

1. After sports, wrappers cover the ground. Which action shows civic pride?

A. Write on walls B. Keep public places clean C. Drop litter

2. Your class leaves the wash area and a tap is open. What should happen?

A. Leave it wasting water B. Break the handle C. Close it safely

3. Residents share a borehole. What is that an example of?

A. Throwing rubbish into B. Shared community use C. One person to destroy

4. You see exposed wires in a community light. What should you do?

A. Climb the pole B. Ignore all danger C. Report it to an adult

5. Neighbours discuss how to live peacefully. Which attitude matters?

A. Respect B. Fighting C. Vandalism

6. An assembly ground is messy after a festival. How can young people help safely?

A. Drop litter B. Write on walls C. Keep public places clean

7. Water flows from an unattended school tap. Which responsible action fits?

A. Close it safely B. Leave it wasting water C. Break the handle

8. The village clinic serves many families. What type of resource is it?

A. One person to destroy B. Shared community use C. Throwing rubbish into

9. A street bench is broken and sharp. To whom should children report it?

A. Climb the pole B. Ignore all danger C. Report it to an adult

10. Two groups disagree over a shared space. Which attitude reduces conflict?

A. Vandalism B. Respect C. Fighting

Learning from Sacred Writings

Today's goal: Explain why followers study sacred writings and oral teachings.

Let's learn

The curriculum names the Bible in Christianity; the Qur'an and Hadith in Islam; and sacred myths, folktales, parables and taboos in African Traditional Religion. Followers may use these teachings to learn values and guide conduct. Learners can listen respectfully and identify messages about kindness, truth and care for others. No child has to profess another person's faith.

Story time

During a respectful class discussion, a Christian, a Muslim and a pupil describing traditional storytelling each share how people learn moral lessons.

Try it together

Ask a trusted adult to share a short moral story from their tradition and discuss its lesson.

Draw and share

Draw three open storybooks or speech bubbles labelled with moral values.

LESSON 14 | Check your learning

PLAY - 5 quick questions

1. Which text is central to Christian teaching?

A. A bus ticket B. The Bible C. A market list

2. Which sacred text is used in Islam?

A. A sports programme B. A shopping receipt C. The Qur'an

3. Which source may teach in African Traditional Religion?

A. Bus timetables B. Sacred folktales C. Price tags

4. Why do followers study sacred teachings?

A. To avoid kindness B. To learn moral guidance C. To bully classmates

5. How should we hear someone else's faith story?

A. With respect B. With mockery C. With insults

CHALLENGE - 10 new questions

1. A Christian family reads a familiar holy book. What is it?

A. The Bible B. A bus ticket C. A market list

2. A Muslim teacher mentions al-Fatihah. What sacred book contains it?

A. A sports programme B. A shopping receipt C. The Qur'an

3. An elder teaches wisdom through an ancestral narrative. Which source may this be?

A. Sacred folktales B. Price tags C. Bus timetables

4. A learner asks why some people read or recite religious texts. What is one purpose?

A. To learn moral guidance B. To bully classmates C. To avoid kindness

5. Two classmates have different religious traditions. How should they listen?

A. With respect B. With insults C. With mockery

6. A pupil mentions Psalm 23. Which text includes it?

A. The Bible B. A bus ticket C. A market list

7. A mosque group studies a sacred written text. Which one?

A. The Qur'an B. A sports programme C. A shopping receipt

8. A family shares a traditional parable about honesty. What type of source is this?

A. Sacred folktales B. Price tags C. Bus timetables

9. A passage encourages helpfulness. What kind of learning can it support?

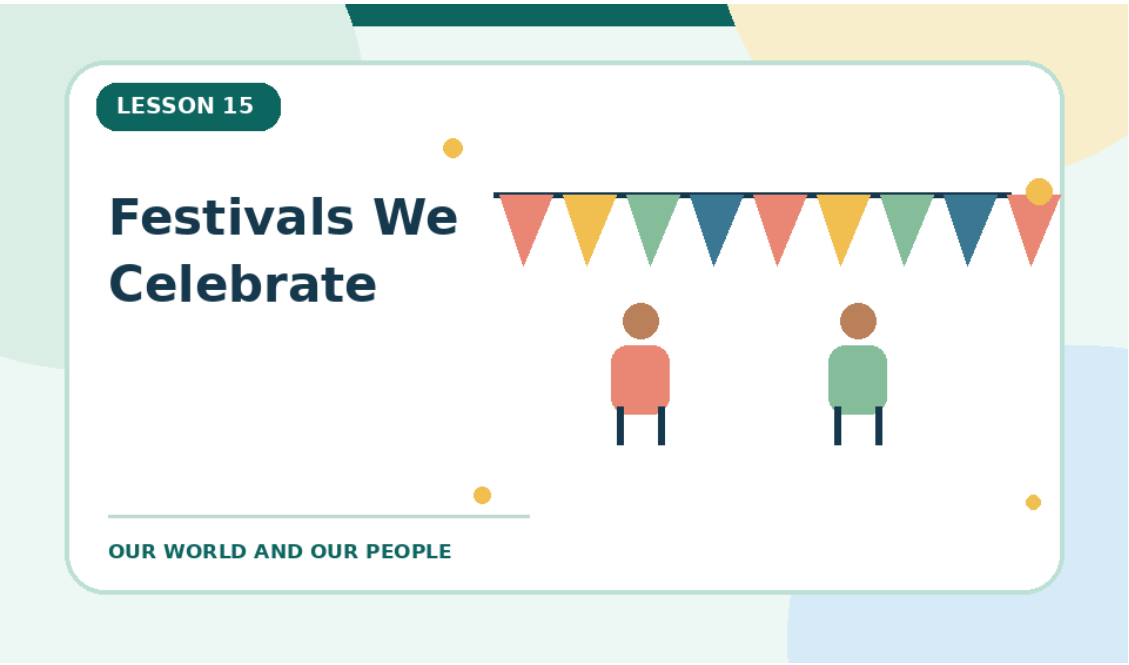

A. To avoid kindness B. To learn moral guidance C. To bully classmates

10. One learner tries to insult a sacred story. What is the better response?

A. With mockery B. With respect C. With insults

Festivals We Celebrate

Today's goal: Describe celebrations of religious and traditional festivals in Ghana.

Let's learn

Festivals bring people together to remember events, express thanks and strengthen identity. The curriculum mentions Eid-ul-Fitr and Eid-ul-Adha; Christmas and Easter; and traditional festivals such as Aboakyer, Hogbetsotso, Adae and Fetu Afahye. Celebrations may include prayer, visits, music, stories and community gatherings. Details differ among communities.

Story time

At a school culture day, pupils share drawings of festivals their families celebrate and listen to one another without teasing.

Try it together

Ask a family or community member about one festival and record two activities people do.

Draw and share

Draw a safe festival scene with colourful clothes, drums or people greeting.

LESSON 15 | Check your learning

PLAY - 5 quick questions

1. Which festival is associated with Muslims?

A. Eid-ul-Fitr B. Aboakyer C. Easter

2. Which festival commemorates events in Christianity?

A. Easter B. Hogbetsotso C. Adae

3. Which example is a Ghanaian traditional festival?

A. Christmas B. Eid-ul-Fitr C. Hogbetsotso

4. Why are festivals important?

A. They stop culture B. They end all friendships C. They bring people together

5. What should visitors show during festivals?

A. Disruption B. Respect C. Ridicule

CHALLENGE - 10 new questions

1. A family marks the end of Ramadan. Which festival fits?

A. Easter B. Eid-ul-Fitr C. Aboakyer

2. A church gathers for a celebration about the resurrection of Jesus. Which is it?

A. Easter B. Adae C. Hogbetsotso

3. An Anlo community celebrates a historic migration festival. Which is named?

A. Christmas B. Hogbetsotso C. Eid-ul-Fitr

4. Neighbours meet after months apart during a celebration. What benefit is shown?

A. They bring people together B. They end all friendships C. They stop culture

5. A visitor sees unfamiliar dancing at a local festival. What attitude is right?

A. Disruption B. Ridicule C. Respect

6. A learner describes a Muslim festival after fasting. Which one may it be?

A. Eid-ul-Fitr B. Aboakyer C. Easter

7. A Christian pupil explains the important spring celebration of their tradition. What is it?

A. Hogbetsotso B. Easter C. Adae

8. A story about migration in the Volta Region mentions a festival. Which name fits?

A. Hogbetsotso B. Eid-ul-Fitr C. Christmas

9. A festival strengthens friendships across households. Why is that valuable?

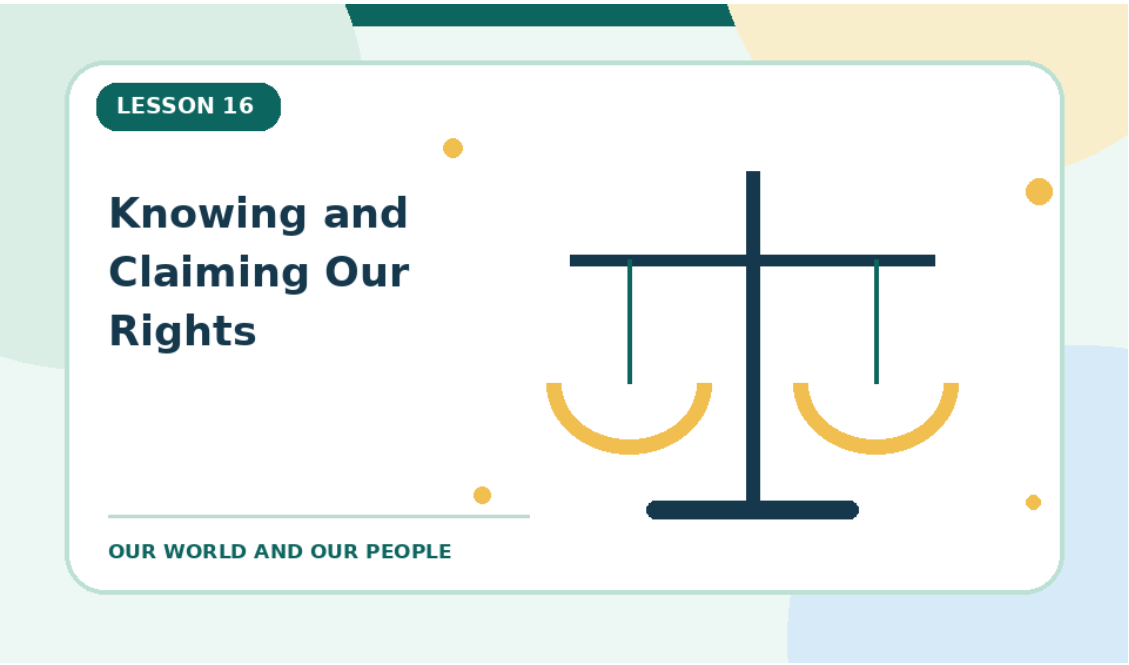

A. They end all friendships B. They stop culture C. They bring people together

10. A classmate has a different festival custom. How should it be treated?

A. Respect B. Ridicule C. Disruption

Knowing and Claiming Our Rights

Today's goal: Identify safe, lawful ways people can seek help when their rights are denied.

Let's learn

Human rights protect dignity and fair treatment. The curriculum mentions speaking up, negotiation and asking institutions such as Social Welfare, CHRAJ, the police or law courts for help. Children should first tell a trusted adult, teacher or appropriate child-protection service if they feel unsafe. Rights are exercised responsibly while respecting other people.

Story time

Adjoa sees a friend being bullied. She speaks to their teacher, who helps the pupils find a safe and fair response.

Try it together

Role-play telling a trusted teacher about unfair treatment and asking for help.

Draw and share

Draw a caring adult listening to a child.

LESSON 16 | Check your learning

PLAY - 5 quick questions

1. What protects everyone's dignity?

A. Exclusion B. Bullying C. Human rights

2. Who can a child tell when unsafe?

A. A trusted adult B. A stranger who threatens them C. No one ever

3. Which Ghanaian body addresses rights concerns?

A. A football club B. A toy shop C. CHRAJ

4. What is a peaceful way to settle some disputes?

A. Threats B. Violence C. Negotiation

5. How should we use our rights?

A. Deny classmates their rights B. Respect others' rights too C. Ignore all rules

CHALLENGE - 10 new questions

1. A classmate is denied fair treatment. Which principle matters?

A. Exclusion B. Human rights C. Bullying

2. A child is frightened by repeated threats. Who should they approach?

A. No one ever B. A trusted adult C. A stranger who threatens them

3. An adult wants to report certain discrimination concerns in Ghana. Which institution is relevant?

A. CHRAJ B. A toy shop C. A football club

4. Two pupils want a peaceful agreement. Which method can help?

A. Negotiation B. Threats C. Violence

5. A learner speaks freely but wants to silence others. What balance is needed?

A. Ignore all rules B. Respect others' rights too C. Deny classmates their rights

6. A person deserves dignity regardless of family background. What protects this idea?

A. Bullying B. Exclusion C. Human rights

7. A friend says they feel unsafe walking home. Who is a sensible first contact?

A. A stranger who threatens them B. A trusted adult C. No one ever

8. Your teacher names the Commission on Human Rights and Administrative Justice. What acronym is used?

A. CHRAJ B. A football club C. A toy shop

9. Two families discuss a fair solution instead of fighting. What is that called?

A. Negotiation B. Threats C. Violence

10. A pupil asks if their freedoms cancel those of friends. What is the responsible view?

A. Respect others' rights too B. Ignore all rules C. Deny classmates their rights

The Early Lives of Religious Leaders

Today's goal: Describe age-appropriate accounts of the early lives and occupations of religious leaders.

Let's learn

The curriculum discusses Jesus Christ, Prophet Muhammad (peace be upon him) and a traditional religious leader such as Egya Ahor. Its occupational examples are Jesus as a carpenter, Muhammad as a businessman and Egya Ahor as a farmer. Different communities may preserve accounts in different ways. Discuss each respectfully and check stories with reliable religious or community sources.

Story time

During a group display, three pupils hold pictures of a carpenter's tools, market goods and farm crops. They explain the curriculum's occupational examples.

Try it together

Use approved texts or a knowledgeable elder to learn and retell one early-life account without inventing details.

Draw and share

Draw three respectful symbols: carpentry tools, goods for trading, and a farm.

LESSON 17 | Check your learning

PLAY - 5 quick questions

1. Which occupation does the curriculum link with Jesus?

A. Astronaut B. Carpentry C. Pilot

2. Which occupation is linked with Muhammad?

A. Space travel B. Deep-sea diving C. Business or trade

3. Which occupation does the example link with Egya Ahor?

A. Flying aircraft B. Making satellites C. Farming

4. What source helps check a life story?

A. A made-up rumour B. A reliable account C. An anonymous joke

5. How should leaders of different faiths be discussed?

A. With ridicule B. Respectfully C. With threats

CHALLENGE - 10 new questions

1. The class pictures someone working with wood in a curriculum example. Who is linked with that work?

A. Astronaut B. Carpentry C. Pilot

2. A teacher describes an early-life example of trading. Which occupation is linked to Muhammad?

A. Space travel B. Deep-sea diving C. Business or trade

3. An elder tells a story of Egya Ahor working on the land. What occupation is named?

A. Flying aircraft B. Making satellites C. Farming

4. A pupil finds two different accounts of an early life. What should they consult?

A. A made-up rumour B. A reliable account C. An anonymous joke

5. Children share traditional and religious biographies. How must the discussion proceed?

A. Respectfully B. With threats C. With ridicule

6. A carving tool appears on a class poster about Jesus. Which trade does it suggest?

A. Pilot B. Astronaut C. Carpentry

7. A group draws goods being sold for the Prophet Muhammad example. What activity does this represent?

A. Deep-sea diving B. Space travel C. Business or trade

8. A drawing of crops accompanies Egya Ahor. Which job does it represent?

A. Making satellites B. Flying aircraft C. Farming

9. Someone offers an unverified detail about a leader. What kind of source should be preferred?

A. A made-up rumour B. A reliable account C. An anonymous joke

10. A pupil disagrees with a religious account. Which tone remains appropriate?

A. With ridicule B. Respectfully C. With threats

Moral Lessons from Leaders

Today's goal: Identify and practise moral lessons from the lives of religious leaders.

Let's learn

The curriculum highlights honesty, patience, hard work, courage, sacrifice and perseverance as lessons associated with religious leaders. People can practise these qualities at home, in class and in the community. A responsible leader listens and serves others. Faith traditions may teach these virtues through different stories.

Story time

As team captain, Akoto admits that the ball touched his hand. His honesty makes the game fair.

Try it together

Choose a virtue and act out a 30-second situation that demonstrates it.

Draw and share

Draw a helpful leader and write three character values around the picture.

LESSON 18 | Check your learning

PLAY - 5 quick questions

1. What means telling the truth?
A. Cheating B. Deception C. Honesty
2. What means continuing after setbacks?
A. Quitting immediately B. Perseverance C. Giving up
3. What means staying calm while waiting?
A. Anger B. Impatience C. Patience
4. What helps a person face fear to do what is right?
A. Avoiding duty B. Cowardly cruelty C. Courage
5. Which virtue values effort and diligence?
A. Laziness B. Neglect C. Hard work

CHALLENGE - 10 new questions

1. A class leader admits a mistake to everyone. Which virtue is shown?
A. Deception B. Cheating C. Honesty
2. A pupil retries a tricky exercise many times. What quality is this?
A. Perseverance B. Quitting immediately C. Giving up
3. You take turns in a slow queue without shouting. Which virtue fits?
A. Anger B. Impatience C. Patience
4. A child speaks up against bullying despite feeling afraid. What quality is shown?
A. Courage B. Avoiding duty C. Cowardly cruelty
5. Your friend completes a long garden project carefully. Which value fits?
A. Hard work B. Laziness C. Neglect
6. Someone returns lost money rather than keeping it. Which moral quality appears?
A. Cheating B. Honesty C. Deception
7. A runner practises after losing one race. What strength do they show?
A. Quitting immediately B. Perseverance C. Giving up
8. A younger child needs help slowly tying a shoelace. What should you show?
A. Impatience B. Anger C. Patience
9. A pupil reports unsafe behaviour even when nervous. Which virtue is used?
A. Avoiding duty B. Cowardly cruelty C. Courage
10. Classmates revise steadily for a difficult quiz. What are they demonstrating?
A. Laziness B. Hard work C. Neglect

Good Manners in Our Community

Today's goal: Identify good manners and why communities value them.

Let's learn

Good manners include greeting people, speaking courteously, being honest, respecting others and showing tolerance. They make relationships peaceful and help people feel welcome. Societal values also encourage responsibility, hard work and patriotism. We can practise good manners every day with both friends and strangers.

Story time

A visitor comes to school and the pupils greet her politely, offer a seat and listen respectfully.

Try it together

Make a class good-manners chart and role-play greeting, apologising and thanking.

Draw and share

Draw two people greeting and a child returning a lost item.

LESSON 19 | Check your learning

PLAY - 5 quick questions

1. What is a polite way to meet someone?
A. Push them B. Greet them C. Insult them
2. What should you say after someone helps?
A. Be quiet B. Thank you C. Go away
3. What means accepting differences?
A. Mockery B. Tolerance C. Intolerance
4. What does returning lost property show?
A. Greed B. Honesty C. Stealing
5. Why do good manners matter?
A. They prevent friendship B. They create quarrels C. They promote peaceful living

CHALLENGE - 10 new questions

1. A new neighbour moves nearby. What polite action can welcome them?
A. Push them B. Insult them C. Greet them
2. A classmate lends you an eraser. Which words show courtesy?
A. Thank you B. Go away C. Be quiet
3. You meet someone who speaks a different language. Which value helps?
A. Intolerance B. Tolerance C. Mockery
4. A child finds a forgotten lunch box and returns it. What value is practised?
A. Honesty B. Stealing C. Greed
5. Two groups are arguing loudly. What can good manners help build?
A. They prevent friendship B. They create quarrels C. They promote peaceful living
6. A pupil sees the headteacher at the gate. What kind action fits?
A. Push them B. Greet them C. Insult them
7. A friend picks up your books after they fall. What should you say?
A. Go away B. Be quiet C. Thank you
8. A student respectfully hears an opinion they do not share. Which value is that?
A. Tolerance B. Intolerance C. Mockery
9. A prefect admits that they misplaced class chalk. Which value is shown?
A. Greed B. Stealing C. Honesty
10. Why should people use courteous language in busy spaces?
A. They create quarrels B. They promote peaceful living C. They prevent friendship

Keeping Law and Order

Today's goal: Explain how rules and responsible institutions support law and order.

Let's learn

Communities use rules and laws to protect people and property. Police and other justice institutions have responsibilities for public safety and the fair use of the law. Lawyers help people understand and use legal processes. Citizens should obey fair rules, avoid violence and report danger appropriately.

Story time

When a road becomes crowded, a police officer directs traffic so children can cross with adult supervision.

Try it together

Role-play a safe community problem and identify who should help.

Draw and share

Draw a safe crossing, road sign and police officer helping people.

LESSON 20 | Check your learning

PLAY - 5 quick questions

1. What help keep a community orderly?
A. Vandalism B. Rules and laws C. Fighting
2. Who may help manage traffic safely?
A. Untrained drivers B. Small toddlers C. Police officers
3. Who helps people with legal advice?
A. Street vendors alone B. Bus conductors alone C. Lawyers
4. How should disputes be handled?
A. By destroying property B. With violence C. Peacefully and lawfully
5. What should children do if they see danger?
A. Tell a trusted adult B. Keep danger secret C. Confront armed people

CHALLENGE - 10 new questions

1. Two neighbours debate rules for shared space. What guides fair behaviour?
A. Vandalism B. Rules and laws C. Fighting
2. Traffic is chaotic near a crossing. Which trained group may control it?
A. Untrained drivers B. Small toddlers C. Police officers
3. A family needs to understand a court process. Whose profession can help?
A. Street vendors alone B. Bus conductors alone C. Lawyers
4. An argument begins in a market. Which approach protects order?
A. By destroying property B. With violence C. Peacefully and lawfully
5. A pupil witnesses dangerous fighting. Who is a safe first contact?
A. Keep danger secret B. Tell a trusted adult C. Confront armed people
6. A school community plans a code of conduct. What kind of guidance is it making?
A. Rules and laws B. Fighting C. Vandalism
7. A driver ignores a traffic officer. Which public worker was involved?
A. Police officers B. Untrained drivers C. Small toddlers
8. An adult wants advice about legal rights in a case. Whom might they consult?
A. Lawyers B. Bus conductors alone C. Street vendors alone
9. Two pupils disagree over equipment. Which method is responsible?
A. Peacefully and lawfully B. With violence C. By destroying property
10. You spot a risky situation outside school. To whom should you report it?
A. Keep danger secret B. Confront armed people C. Tell a trusted adult

Honouring Ghana's National Symbols

Today's goal: Demonstrate respect for important Ghanaian national symbols.

Let's learn

National symbols help represent Ghana's identity and history. The curriculum names the national flag, Coat of Arms, National Anthem, National Pledge and Adinkra symbols. We show respect by handling flags carefully and behaving respectfully during national ceremonies. Learn the meanings of symbols without damaging them.

Story time

At assembly, the class stands respectfully for the National Anthem. Later, they draw the flag carefully and discuss its colours.

Try it together

Create a display of two national symbols and explain a respectful way to treat each.

Draw and share

Draw the Ghana flag with correct red, gold and green bands and a black star.

LESSON 21 | Check your learning

PLAY - 5 quick questions

1. Which has red, gold, green and a black star?
A. A football only B. Ghana's flag C. A textbook cover
2. Which song is heard at national ceremonies?
A. National Anthem B. A game chant C. A market jingle
3. Which symbol includes a shield in its design?
A. A telephone B. A drinking cup C. Coat of Arms
4. What expresses a citizen's promise of duty?
A. Shopping list B. Bus ticket C. National Pledge
5. How should a national flag be treated?
A. With respect B. Torn for fun C. Thrown in mud

CHALLENGE - 10 new questions

1. At a flag-raising event, what striped symbol is raised?
A. A football only B. Ghana's flag C. A textbook cover
2. The school sings a patriotic song at assembly. Which formal song is it?
A. A game chant B. A market jingle C. National Anthem
3. A government document displays a shield and supporters. Which emblem is shown?
A. Coat of Arms B. A telephone C. A drinking cup
4. Children recite their commitments to Ghana. What are they saying?
A. National Pledge B. Shopping list C. Bus ticket
5. After a programme, a flag needs folding and storing. What attitude fits?
A. With respect B. Torn for fun C. Thrown in mud
6. Your poster shows three Ghana colours and a central star. What did you draw?
A. Ghana's flag B. A football only C. A textbook cover
7. A pupil asks which official song people stand for in assembly. What is it?
A. National Anthem B. A game chant C. A market jingle
8. A drawing shows Ghana's shield emblem. What is its name?
A. Coat of Arms B. A telephone C. A drinking cup
9. A student recites duties to the nation before lessons. What is it called?
A. Shopping list B. National Pledge C. Bus ticket
10. You spot a flag dropped on the floor. How should you respond?
A. Torn for fun B. With respect C. Thrown in mud

Wise Use of Energy

Today's goal: Explain ways to conserve electricity and other forms of energy.

Let's learn

Energy powers lights and many tools we use. We save electricity by switching off lights and appliances when not needed and choosing efficient bulbs where possible. Adults should unplug or repair unsafe electrical equipment. Conserving energy reduces waste and can help families manage costs.

Story time

When school ends, a teacher reminds pupils to switch off the lights. The classroom is empty, so no electricity needs to be wasted.

Try it together

With an adult, make a home or classroom energy-saving checklist.

Draw and share

Draw a light switch in the OFF position with a small “Save Energy” poster.

LESSON 22 | Check your learning

PLAY - 5 quick questions

1. What should happen to unused lights?
A. Leave them all on B. Switch them off C. Break bulbs
2. Which bulbs can help use less electricity?
A. Energy-saving bulbs B. Broken bulbs C. Candles in classrooms
3. Who should handle faulty sockets?
A. A trained adult B. Unsupervised children C. Anyone with wet hands
4. Why save energy?
A. Increase waste B. Reduce waste C. Damage tools
5. What should happen to unused gadgets?
A. Turn them off B. Place them in water C. Leave them running

CHALLENGE - 10 new questions

1. The class leaves a bright, empty room. What should happen to the lights?
A. Switch them off B. Leave them all on C. Break bulbs
2. A family replaces old inefficient lamps. Which type is a good option?
A. Broken bulbs B. Candles in classrooms C. Energy-saving bulbs
3. A learner sees a sparking wall outlet. Who must deal with it?
A. A trained adult B. Unsupervised children C. Anyone with wet hands
4. A school wants to avoid unnecessary electricity use. What is the goal?
A. Reduce waste B. Damage tools C. Increase waste
5. Nobody is using the television. What should happen?
A. Leave them running B. Place them in water C. Turn them off
6. At noon, a lamp is on despite enough daylight. What is the saving action?
A. Switch them off B. Break bulbs C. Leave them all on
7. An assembly discusses efficient lighting. Which bulbs should be mentioned?
A. Broken bulbs B. Energy-saving bulbs C. Candles in classrooms
8. A plug smells burnt. Who should inspect it?
A. Anyone with wet hands B. A trained adult C. Unsupervised children
9. Why encourage neighbours to conserve power?
A. Increase waste B. Damage tools C. Reduce waste
10. The computer lab closes for the day. What should be done with idle devices?
A. Place them in water B. Turn them off C. Leave them running

Made and Grown in Ghana

Today's goal: Identify agricultural products produced in Ghana and explain their value.

Let's learn

Ghanaian agriculture provides foods and goods such as yam, cocoyam, rice, poultry and cocoa products including chocolate. Farmers and workers help supply our homes and markets. Using and appreciating local agricultural products supports livelihoods and jobs. Eating a variety of safe local foods helps families enjoy a balanced diet.

Story time

For a class display, Kweku brings a yam drawing, Abena brings a rice picture and Sena shows a cocoa pod.

Try it together

List five products found in your local market and ask which are grown or produced in Ghana.

Draw and share

Draw a basket with yam, rice, cocoa pods and vegetables.

LESSON 23 | Check your learning

PLAY - 5 quick questions

1. Which food is a Ghanaian root crop?
A. Plastic ruler B. Yam C. Shoe leather
2. Which Ghanaian crop is used in chocolate?
A. Sand B. Cocoa C. Chalk
3. Which is an agricultural animal product?
A. Poultry B. Window glass C. Paper clips
4. Why appreciate local farm products?
A. They support jobs B. They create no livelihoods C. They destroy all markets
5. Where can families buy many farm products?
A. Markets B. Library shelves C. Clouds

CHALLENGE - 10 new questions

1. A trader sells large tubers from farms. Which local crop might these be?
A. Plastic ruler B. Shoe leather C. Yam
2. A factory makes Ghanaian chocolate. Which crop supplies the main ingredient?
A. Chalk B. Cocoa C. Sand
3. A farmer raises chickens for food. Which product category fits?
A. Poultry B. Window glass C. Paper clips
4. A pupil asks how buying local crops can help others. Which benefit matters?
A. They create no livelihoods B. They support jobs C. They destroy all markets
5. Your parent buys rice and vegetables from a stall. Where are they shopping?
A. Library shelves B. Clouds C. Markets
6. A school meal uses roasted tubers from Ghana. What example matches?
A. Plastic ruler B. Shoe leather C. Yam
7. A cocoa pod is displayed at the harvest festival. What food can it help make?
A. Sand B. Cocoa C. Chalk
8. A family farms chickens for sale. What product is being raised?
A. Paper clips B. Poultry C. Window glass
9. A class discusses farming and employment. What is one reason to buy local?
A. They destroy all markets B. They support jobs C. They create no livelihoods
10. You want to find grown foods for dinner. Which place commonly sells them?
A. Clouds B. Markets C. Library shelves

Ghana and Its Neighbours

Today's goal: Describe where Ghana and its three land neighbours are located.

Let's learn

Ghana is in West Africa. Côte d'Ivoire is to the west, Togo to the east and Burkina Faso to the north. To the south is the Atlantic Ocean. These directions help us read a simple regional map and understand how Ghana connects with nearby countries.

Story time

In a map game, Afia places three name cards around Ghana and adds blue paper below for the ocean.

Try it together

Use a printed map or globe to identify all four directions around Ghana.

Draw and share

Draw a simple compass rose and label Ghana's neighbours and the Atlantic Ocean.

LESSON 24 | Check your learning

PLAY - 5 quick questions

1. Which country lies east of Ghana?

A. Senegal B. Togo C. Nigeria

2. Which country lies west of Ghana?

A. Côte d'Ivoire B. Mali C. Kenya

3. Which country lies north of Ghana?

A. Burkina Faso B. South Africa C. Morocco

4. What is south of Ghana?

A. Atlantic Ocean B. Lake Victoria C. Sahara Desert

5. Which part of Africa contains Ghana?

A. East Asia B. South America C. West Africa

CHALLENGE - 10 new questions

1. On a map, the land immediately to Ghana's right is which country?

A. Senegal B. Togo C. Nigeria

2. A road heads across Ghana's western border. Which neighbour is reached?

A. Côte d'Ivoire B. Mali C. Kenya

3. A trader travels straight north across a land border. Which country might they enter?

A. South Africa B. Burkina Faso C. Morocco

4. A fisher looks towards Ghana's coast. What large body of water is there?

A. Lake Victoria B. Sahara Desert C. Atlantic Ocean

5. You find Ghana on a continental map. Which African region is it in?

A. East Asia B. South America C. West Africa

6. A teacher labels the eastern border of Ghana. Which country should appear?

A. Togo B. Senegal C. Nigeria

7. A map has Ghana's western boundary blank. Which country should be written there?

A. Mali B. Kenya C. Côte d'Ivoire

8. When tracing the northern boundary, what country is found?

A. Morocco B. Burkina Faso C. South Africa

9. Students draw blue waves at the southern edge of Ghana. What are they drawing?

A. Sahara Desert B. Lake Victoria C. Atlantic Ocean

10. A class travels in imagination across the African continent. Where is Ghana?

A. South America B. East Asia C. West Africa

Discover the Computer

Today's goal: Identify selected computer parts and practise basic keyboard use.

Let's learn

A computer has parts that work together. A keyboard lets us type, a mouse helps point and select, a storage device keeps files and a power supply provides electricity. The curriculum highlights Tab, Caps Lock and the bottom letter row. We should use devices carefully and ask an adult before inserting or removing drives.

Story time

At the computer corner, Efua types a four-letter word, points to Caps Lock and practises moving the mouse with her teacher.

Try it together

With permission, identify Tab and Caps Lock on a keyboard and type three short words.

Draw and share

Draw and label a monitor, keyboard, mouse and USB drive.

LESSON 25 | Check your learning

PLAY - 5 quick questions

1. Which part is used to type letters?

A. Keyboard B. Chair C. Cupboard

2. Which device helps point and click?

A. Water bottle B. Mouse C. Fan

3. What does Caps Lock control?

A. Capital letters B. Screen brightness only C. Printer paper

4. What can hold saved files?

A. Empty cup B. Storage device C. Paint brush

5. What should pupils do before removing a drive?

A. Ask the teacher and follow safe steps B. Pull it out during saving C. Throw it on the floor

CHALLENGE - 10 new questions

1. Your teacher asks you to type “farm”. Which part will you use?

A. Chair B. Cupboard C. Keyboard

2. You need to select an icon on a screen. What device helps?

A. Mouse B. Fan C. Water bottle

3. You want to type several uppercase letters. Which key may help?

A. Screen brightness only B. Capital letters C. Printer paper

4. A project must be saved for later. What kind of device can keep it?

A. Storage device B. Paint brush C. Empty cup

5. A USB drive is in use. What is the safe next step for a pupil?

A. Ask the teacher and follow safe steps B. Throw it on the floor C. Pull it out during saving

6. The class types a short sentence. What input tool is being used?

A. Cupboard B. Chair C. Keyboard

7. The pointer must move to a game icon. Which tool can do this?

A. Water bottle B. Fan C. Mouse

8. A student finds Caps Lock on the keyboard. What feature does it control?

A. Screen brightness only B. Printer paper C. Capital letters

9. A hard disk is named during lesson. What does its main role include?

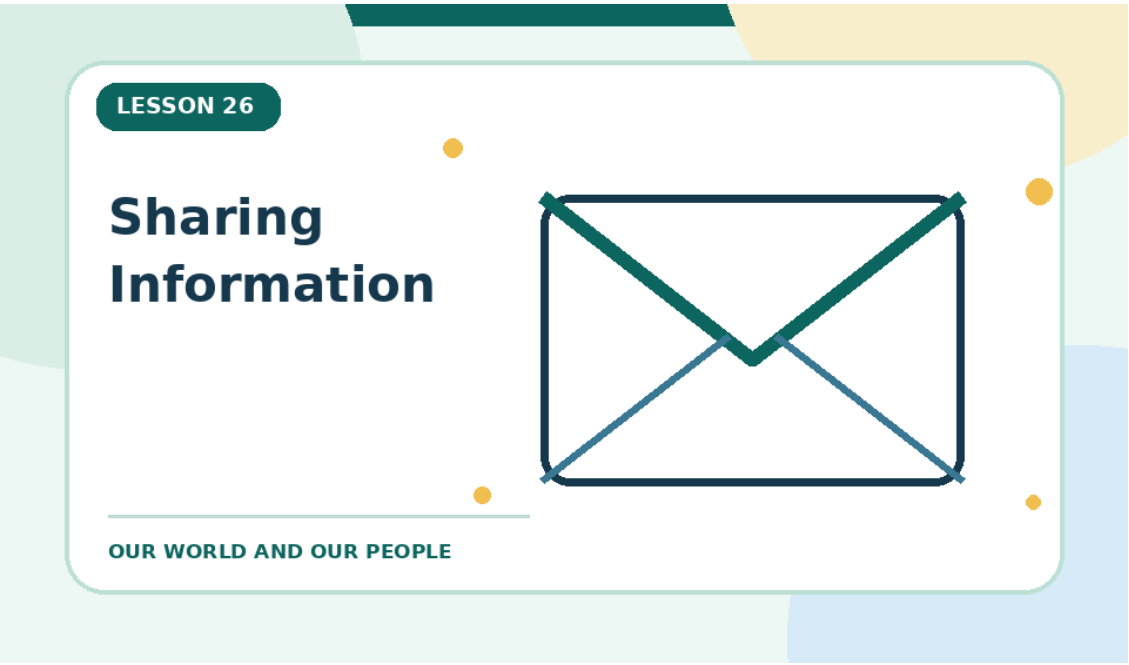

A. Storage device B. Paint brush C. Empty cup

10. A child wants to eject a disc while it is running. What should they do first?

A. Ask the teacher and follow safe steps B. Pull it out during saving C. Throw it on the floor

Sharing Information

Today's goal: Demonstrate ways people send and receive information.

Let's learn

Information can be shared through letters, posters, newspapers, phone calls or text messages (SMS). The message should suit the audience and be clear and respectful. People can ask questions to check meaning. Children should protect private details and seek adult help before communicating with unknown people online.

Story time

Akua writes a class notice about a clean-up day and places it where pupils can see it. Her friends check the time and place before attending.

Try it together

Role-play a polite phone conversation and write a simple class notice.

Draw and share

Draw a letter, a poster and a phone with speech bubbles.

LESSON 26 | Check your learning

PLAY - 5 quick questions

1. Which item can carry a written personal message?
A. Stone wall alone B. Letter C. Empty bottle
2. What can announce a school event?
A. Blank floor B. Unmarked rope C. Poster
3. How can people speak across distance?
A. Closed book B. Sleeping C. Telephone call
4. What does SMS mean in everyday phone use?
A. A kind of shoe B. Text message C. A cooking pot
5. How should children handle private information online?
A. Protect it and ask a trusted adult B. Post every detail publicly C. Share passwords widely

CHALLENGE - 10 new questions

1. A child wants to write news to a relative. Which medium fits?
A. Stone wall alone B. Empty bottle C. Letter
2. The headteacher needs to show date and time for sports day. What could be displayed?
A. Poster B. Unmarked rope C. Blank floor
3. Grandma lives far away and wants to talk now. What can help?
A. Closed book B. Telephone call C. Sleeping
4. A phone screen shows short typed words from a friend. What is this?
A. A cooking pot B. Text message C. A kind of shoe
5. A stranger asks a child to share their address online. What is the safe response?
A. Protect it and ask a trusted adult B. Post every detail publicly C. Share passwords widely
6. A pupil wants to send a personal written note by post. Which method fits?
A. Letter B. Empty bottle C. Stone wall alone
7. A club announces its meeting on a wall display. What is the display?
A. Unmarked rope B. Poster C. Blank floor
8. Two people want real-time voices across towns. Which method is suitable?
A. Telephone call B. Closed book C. Sleeping
9. Parents receive a short message on their phones. What is that called?
A. A cooking pot B. A kind of shoe C. Text message
10. A child is unsure about an online contact asking for a password. What should they do?
A. Protect it and ask a trusted adult B. Share passwords widely C. Post every detail publicly

Technology Helps Us Communicate

Today's goal: Identify benefits of communication technology and how to use it politely.

Let's learn

Telephones and other communication tools help people contact one another over distances. The curriculum highlights faster contact, lower travel needs and easier communication. Handle devices carefully, keep them out of excessive heat and follow adult guidance. Speak politely on phone calls, introduce yourself and listen to the other person.

Story time

Kofi calls his aunt with permission, says hello, gives his name and speaks clearly. He thanks her before ending the call.

Try it together

Role-play making and receiving a polite call; demonstrate safe device care.

Draw and share

Draw two phones linked by a speech bubble and two smiling people.

LESSON 27 | Check your learning

PLAY - 5 quick questions

1. What is one benefit of a phone?

A. Faster contact over distance B. Longer travel for messages C. No communication

2. How should a caller begin?

A. Keep silent forever B. Shout angrily C. Greet and introduce themselves

3. What should you do while someone speaks?

A. Interrupt repeatedly B. Insult them C. Listen politely

4. How should devices be handled?

A. Left in hot sun B. Thrown on the ground C. With care

5. Who should guide children's phone use?

A. A trusted adult B. No one ever C. Unknown online strangers

CHALLENGE - 10 new questions

1. A family member lives far away. How can communication technology help?

A. Longer travel for messages B. No communication C. Faster contact over distance

2. You call a teacher with permission. What is a polite opening?

A. Greet and introduce themselves B. Keep silent forever C. Shout angrily

3. During a call, a friend is sharing news. What is good manners?

A. Insult them B. Interrupt repeatedly C. Listen politely

4. You finish using a school phone. How should you put it away?

A. Left in hot sun B. Thrown on the ground C. With care

5. A child wants to contact an unfamiliar person. Who should be involved?

A. A trusted adult B. No one ever C. Unknown online strangers

6. A neighbour needs to deliver urgent news in another town. What is a phone useful for?

A. Longer travel for messages B. Faster contact over distance C. No communication

7. A pupil answers a call from a known adult. What should they do first?

A. Keep silent forever B. Shout angrily C. Greet and introduce themselves

8. Your caller needs time to complete a sentence. What behaviour is appropriate?

A. Insult them B. Interrupt repeatedly C. Listen politely

9. Someone wants to place a device on a hot car dashboard. What is better?

A. Left in hot sun B. With care C. Thrown on the ground

10. A child is planning to message a stranger. Who should guide them?

A. A trusted adult B. No one ever C. Unknown online strangers

Answer keys

Check answers only after you have tried each question. Each letter matches A, B or C on the question page.
